Agee Loses

In U.S. Suit

On Passport

Revocation Upheld

By Supreme Court

agent who has exposed many of

the agency's secrets, the Supreme Court ruled Monday that the sec-retary of state may revoke a passport if the holder is a threat to

national security. The 7-2 decision

Mr. Agee's passport was re-voked by the State Department in

1979 under the Passport Aet of 1926 on grounds that his disclo-

sure of the names of CIA agents

was barmful to the agency.

When there is a substantial

likelihood of serious damage to na-

tional security or foreign policy as a result of a passport holder's ac-

tivities in foreign countries, the

statement of reasons and an op-

portunity for a "prompt" hearing

expressly authorize the secretary of state to revoke a passport, it also does not "expressly limit those powers," the chief justice said, "It

While the Passport Act does not

beyond dispute that the secre-

passport for reasons not specified

ny except to return to the United

policy of the United States"

agents, employees or sources."

Expolsion the Aim

The disclosures, it said, were

Embarking in 1974 on a cam-

paign to discredit the Central In-telligence Agency, Mr. Agee used

information gained during his nine

years of service to disclose the names of nearly 1,000 CIA agents.

dissented from the court's ruling.

"And it is important to remem-ber that this decision applies not

only to Philip Agee, whose activi-ties could be perceived as harming

the national security, but also to

other citizens who may merely dis-

agree with the government foregn

policy and express their views."

Beheshti, 4 Iran Ministers Among 72 Killed by Bomb

TEHRAN — Iran's powerful chief justice, Ayatollah Mohammed Beheshti, and several other leading politicians were among 72 persons killed late Sunday when explosives blew apart the headquarters of the ruling Islamic Republican Party, opening a vast power gap in the revolutionary government. Pars news agency reported Monday.

Thousands of demonstrators, carrying photographs of Ayatollah Ruhollah Khomeini and Ayatollah Beheshu, poured into central Tehran to protest the attack, which surviving leaders blamed on Iraq — with whom Iran is fighting an inconclusive war — and the United States. Pars said the demonstrators were "calling on the imam [Ayatollah Khomeini] to let them crush the counterrevolutionary forces."

Ayatollah Beheshti, 52, was the strongest revolutionary leader in Iran after the ailing, 81-year-old Ayatollah Khomeini. Among the others killed were four Cabinet ministers, six deputy ministers and 20 members of the Majlis (parliament).

Majlis Speaker Hashemi Rafsanjani said the blast was the work of "committed agents of the U.S.A., the sworn colleagues of [Iraqi President] Saddam [Hussein]," Tehran Radio said.

In Washington, Secretary of State Alexander M. Haig Jr. said there was "absolutely no American involvement in the recent tragic events in

Ayatollah Beheshti was head of the Islamic Republican Party and the Suoreme Court, and was the mastermind of the clerics' growing hold on power. He was one of the triumvirate that took over the country's management after Abolhassan Bani-Sadr was formally dismissed as president

United Press International
WASHINGTON — In a case involving Philip Agee, a former CIA Chief government spokesman Behzad Nabavi said Monday that elections to replace the dead Majlis deputies would take place soon and that voting for Mr. Bani-Sadr's successor would go ahead as planned July 24. Pars said Tehran "is expected to witness one of the greatest funerals tomorrow [Tuesday] for these martyrs."

Prosecutor Appointed

Tehran Radio said that Ayatollah Khomeini had appointed Prosecu-tor-General Sevyed Abdolkarim Musavi-Ardabili as chief justice to replace Ayatollah Beheshti. Ayatollah Rabbani Amleshi was appointed prosecutor-general, the broadcast said.

Ayatollah Khomeini ordered Premier Mohammed Ali Rajai to appoint temporary replacements for the four Cabinet ministers and to find permanent replacements as quickly as possible. There are 22 posts in the

Tehran Radio said Musa Kalantari, 33, minister of roads and transport, and Hassan Abaspur, 37, minister of power, were killed. Tehran's revolutionary prosecutor, Assadollah Lajverdi, was also reported to have died. The newspaper Islamic Republic said Mohammed Ali Fayazbakhsh, 44, minister of state for welfare, was killed. The fourth Cabinet

3 Nations Said to Share Nuclear Secrets

By Judith Miller

New York Types Service WASHINGTON — An expanding pattern of nuclear contacts ng Israel, Talwan and South Africa-has opened a debate within the Reagan administration about whether the three nations are assisting one another in the development of atomic weaponry.

tary has the power to deny a Some intelligence and State De-partment officials who monitor the Mr. Agee, who was a CIA agent flow of nuclear technology and in-formation are convinced that the from 1957 to 1968, now lives in passport means he would not be able to travel outside West Germajor players in an emerging club of politically isolated nations whose purpose is to help each other ac-

quire their own ntomic bombs. The government accused Mr. These nations have been forced to rely on one another for military Agee of causing "serious damage to the national security and foreign and intelligence contacts, the officials said, as each has become propurporting to identify individuals gressively more estranged in the within specific countries as CIA world community.

These officials and private experts expressed concern that Israel might increase such covert contacts if its diplomatic isolation grows as a result of the recent attack on Irag's nuclear reactor.

Other officials within these agencies, however, disagree that such a network is emerging and minimize the threat it might pose to nuclear nonproliferation efforts. While they acknowledge that there seems to be an increasing exchange of nuclear technology, know-how, and materials among the three, they are skeptical that the cooperanon is aimed at developing nuclear weapons and effective delivery sys-

U.S. Observers See Atomic Club **Emerging Amid Political Isolation**

on nuclear matters are disturbed by the following:

• Israel is said by intelligence

officials to be assisting Taiwan in, developing a rocket that could be used to deliver atomic warheads. Intelligence officials report

that Israeli scientists are working in South Africa on nuclear energy programs that could assist the government there to acquire the knowhow to build nuclear weapons.

 Scientists from Taiwan are said to be working for South Africa on projects that would enable Pretoria to produce weapons-grade

· South Africa has become an exporter of uranium to both Israel and Taiwan, and last year, Taiwan signed a 6-year contract to obtain 4.000 tons of uranium from South Africa, intelligence officials said. In exchange, Pretoria is said to be receiving critically important technology and training from Israel and Taiwan.

Contacts Cited These contacts are cited in a 1979 study prepared for the Defense intelligence Agency and released last year. The report con-cludes that South Africa has "enhanced international opportunities weapons and effective delivery systems.

But several officials who have most closely followed the develop-

ment of what one termed the "tri-angular relationship" among Taiwan, Israel and South Africa say, for example, that Brazil resay, for example, that Brazil re-cently agreed to provide Iraq with

sensitive nuclear power technology

obtained from West Germany in

exchange for guaranteed access to Iraqi oil. U.S. intelligence officials conhad produced nuclear weapons in

a program centered at Dimona. with a French-built reactor and uranium supplied "partly by clan-destine means," according to a Central Intelligence Agency report made public in January. 1978.

Last week, CIA analysts told members of the House Foreign Affairs Committee in a secret session, according to one congressional source, that Israel was now be-lieved to possess 10 to 20 nuclear weapons that could be delivered either by fighter bembers or Israel's domestically designed and built

Jericho missile. Meanwhile, Moshe Dayan, former defense and foreign minister of Israel, said last week that while Israel did not have any bombs now, "we have the capacity," and could manufacture weapons "in a

short time." Nuclear cooperation is only part of an intensive pattern of exchanges of conventional military and economic ties among the three, which, officials say, complicate the intelligence community's efforts to monitor the contacts.

The contacts reflect the three states' perception that their political isolation is increasing.
"The four feel themselves es-

tranged from the First World Western democracies), blasted by the Second World [Communist states], yet barred from the Third World," observed Kenneth L. Adelman, author of the Defense Intelligence Agency study on South Africa's nuclear potentia! and a former member of the administration's transition team at the State Department.

Fear for Existence

Each nation fears that its security and very existence is threatened: Israel, by hostile Arab states: South Africa by world reaction to its system of racial separation; and Taiwan by I billion mainland Chi-

Analysts point to other linkages. In the case of South Africa, its large Jewish population promotes ties with Israel. Mr. Adelman notes that South Africa's 120,000 Jews donate more per capita to 1srael than any other Jewish community outside of Israel, and are second in total contributions only to American Jews.

A panel of experts appointed by the Carter White House concluded last year that a mysterious flash off the coast of South Africa in September, 1979, was most likely explained by natural phenomena. But several intelligence officials said that they were still convinced that the flash was a nuclear explosion. Some believe that it was a nuclear test conducted covertly by South Africa, Israel and, perhaps,

Somali President Ready for Ogaden Peace Talks

By Pranay B. Gupte New York Times Service

NAIROBI - President Mohammed Siad Barre of Somalia said here Monday that he was pre-pared to meet immediately with tects both popular and unpopular speech, it likewise protects both popular and unpopular travelers." the Ethiopian leader, Col. Mengisru Haile Mariam, to hold "peace negotiations" concerning the disputed, Ethiopian-held Ogaden. and be urged Col. Mengistu to ac-cept his offer.

"Let us talk without any precon-

ditions, let us finally have a dia-logue of real sincerity." the 62-year-old president said in a twohour interview hefore he left Nairobi for Somalia, "We have been antagonists for too long. We seek now a peaceful solution to the Earlier, as the Organization of African Unity was ending its sum-

mit meeting here, President Gaafar al-Nimeiri of the Sudan said that he and other African leaders were initiating a move to expel Libya from the United Nations. In an interview, Mr. Nimeiri said that the Sudan severed relations with Libya last week because of "clear evidence" of subversive

Moamer Qadhafi. He said that the Sudan and a majority of the 50 members of the OAU would refuse to attend next year's talks if the organization met in Tripoli.

activities by the regime of Col.

Mr. Nimeiri said that Col. Qadhafi was "emboldened" by his close political and military ties to the Soviet Union, which supplies Libya with most of its arms. He cited the recent Libyan interven-tion in Chad, where Col. Qadhafi sent his troops in a move that was supported by the Russians but crit-icized by most African nations.

"From all this you can see that the Soviet Union is backing Qadhafi, including his terrorism. the 51-year-old Sudanese president cerned that the West and some Third World countries had been slack in dealing with alleged Lihyan subversion. In another action at the OAU

talks, African leaders unanimously endorsed the candidacy of Foreign Minister Salim A. Salim of Tanzania for the office of United Nations secretary-general.

Peace Talks Stressed

In the interview about the Oga-den — a desert region on the southeastern border of Ethiopia that juts into the Horn of Africa— President Siad Barre said he would try to exert his influence to persuade the guerrilla organization fighting Ethiopian control to allow peace negotiations to start.
Mr. Sad Barre said that al-

though his government provided "moral, political and diplomatic

support" to the guerrilla group, known as the Westero Somali Liheration Front, Somalia did not give the rebels weapons or training, and would not do so. In another major enunciation of

Somali foreign policy. President Siad Barre said that his country was also seeking accommodation with Kenya, with whom Somalia has had a border dispute for many

"Somalia is not seeking any territorial gain from Kenya." Mr. Siad Barre said. "We are for ac-commodation. We are not seeking any territory from Kenya."

British Involved

The territory in question is settied mainly by Somali tribes whose area was arbitrarily divided up by Africa's colonial powers, chiefly the British. Kenya claims that the Somalis want to bite off the area. known as the Northeastern province, and there has been heavy fighting there in recent months.

But the OAU, whose charter upholds territorial integrity, contends that African nations must honor and respect houndaries already established by colonial powers at the time of those states' independence. however arhitrary those bounda-

Mr. Siad Barre said that he had meet privately with President Daniel Arap Moi of Kenya on the sub-

ject and that there would be more such meetings to resolve the dispute. "We are trying to reach an understanding and remove the obstacles," the Somali leader said. adding. "But our relations with Kenya won't be brotherly unless this is settled."

Several times during the interriew, the Somali president stressed that both Ethiopia and Somalia had incurred great military and economic losses because of their dispute. Although Mr. Sind Barre has previously indicated that Somalie would prefer a peaceful solution to the Ogađen crisis, his remarks represented the first time that he has made a direct appeal to the Ethiopians as well as given an assurance that he would place some pressure on the guerrilla group to suspend hostilities in order to institute negotiations.

"We need cooperation with Ethiopia in a brotherly way, said. "Now is the time to find a way out. After our long, long struggle, there should now be re-

PEKING - In a nation led by revolutionary war heroes, Hu Yaobang never commanded an army. He never governed a province or ran a government ministry. His speeches seldom reach beyond party functionaries. Few foreigners have ever met him.

Yet the man chosen on Monday to be the new chairman of China's Communist Party will be called upon in the coming years to demonstrate the kind of political wisdom and administrative skill needed to guide a nation of 1 billion people through some of the most drastie economic and social changes since this Socialist state

was founded 32 years ago.
Although formally named Monday to head the world's largest Communist Party, Mr. Hu has acted in that role since late last year when Hua Guofeng lost out in a power struggle and unofficially re-

Conservative influence

Mr. Hu will be aided in his task by the prestige be emjoys as the last of a generation of Communists who survived the historic Long March, China's civil war and its first three decades of nationhood. He is known to have a keen mind and close friendships among younger Communist leaders. whom he met when he was China's youth leader during the 1950s and

mate relationship with Deng Xi-aoping, China's deputy premier and the country's foremost leader. It was Mr. Deng who muscled through the appointment of his protégé, against the opposition of suspicious old-line military officers and party bureaucrats.

Mr. Deng, who holds the title of vice chairman despite his preemi-nent place in Chinese politics, pushed his trusted friend to the top of the party as a kind of life insurance policy. At 76, Mr. Deng is grooming a team of successors to carry on his reform policies after he dies and to resist the leftist programs that shattered China during the Cultural Revolution.

Pragmatic Politican

Like his mentor, Mr. Hu is a pragmatic politician who helped fashion the programs that have erned China since he and Mr. Deng returned in 1977 from their officially instigated disgrace. They have opened China to the West, injected capitalist incentives into a stagnant economy, reformed the bloated and conservative Communist Party, and taken the politics

As Mr. Deng's choice for party general secretary 16 months ago and before that for a leading role on the new disciplinary committee. Mr. Hu has acted as a political broom, trying to sweep out leftover radical associates of Mao who continue to occupy important po-sitions in the bureaucracy and take every opportunity to resist the new

Mr. Ho acted in two other jobs that led to controversy but gained him the respect of party leaders. As head of the party's organization work, he investigated Cultural Revolution cases and boldly rehabilitated its victims. As head of the propaganda department, he of party corruption and the need to reform the party structure. Mr. Hu has also served as the

leadership's most acidic critic of the decadelong Cultural Revolution, calling it a "catastrophe" without a single redeeming quality. Even before the official press began questioning Mao's role in the calamitous campaign, Mr. Ho blamed the "great helmsman" for the "majority of ultraleftist mis-

This has gained him wide popularity among the party's intellectuals and scientists who, like Mr.
Deng and Mr. Hu, suffered
grievously during the radical decade. They regard Mr. Ho as an ally who possesses the leadership most tolerant view on freedom of

But these qualities alienate stillpowerful leftists in the military and party who feel threatened by Party.

Mr. Hu's slashing attacks against them and their hero, Mao. They believe that the reforms Mr. Hu is trying to implement run contrary to Socialist ideals and will weaken the authority of the Communist

With Mr. Deng behind him, the new chairman is expected to have the authority to offset the conservative influence. Once his patron departs, however, it is uncertain whether Mr. Hu will have sufficient political connections and levers of power to control a party still fractured by the Cultural Rev-

As Mr. Deng's alter ego for the last 40 years, Mr. Hu never built the kind of power base that has propelled other Chinese to leader-

without Deng," concluded an Asian diplomat, "Hu cannot operate. Deng is the one who holds it together for his junior partner."

The partnership began not long after Mr. Ho left his native Hunan province at the age of 14 to become a "little red devil," or child soldier fighting for Communist forces. Since the two men fought side by side against the Japanese in the arid Taihang Mountains of northwest China, Mr. Ho has shared his senior partner's political ups and downs.

When Mr. Deng was party boss of southwest China after the Com-munist takeover in 1949, Mr. Hu was posted in Mr. Deng's native southwest province of Sichuan. In 1952, Mr. Hu followed Mr. Deng to Peking, where he began his long career as head of the Communi Youth League, which was the main avenue of entry into the party for most of the second generation of Communist leaders.

The two men disappeared from public view in 1966 during the Cultural Revolution and were brutally criticized by Red Guards. Mr. Hu has said that he spent 2½ years of his political exile living in a rural cow shed, forced to clean up after cattle. The remainder of his time during the Cultural Revolution was spent at cadre reeducation schools and under house arrest, he told Yugoslav journalists in a rare

interview last year.
When Mr. Deng briefly regained power in 1973, he assigned his old riend to restore morale at the battered Academy of Sciences. And when Mr. Deng was purged a second time in 1976, Mr. Hu also vanished, remaining oul of sight until his mentor again reappeared in 1977 and quickly had his favorite lieutenant placed on the Cen-tral Committee of the Communist

UMBRELLAS OF LUXEMBOURG - Trade unionists from throughout Europe staged a protest march outside the Common Market building in Luxembourg Monday as EEC ministers and heads of government began their economic summit meeting. Details, Page 1.

minister was listed as Mahmud Qandi, 37, minister of posts and elecommunications.

Although Ayatollah Beheshti left no obvious successor as Iran's No. 2 leader, the other members of the presidential council that took over from Mr. Bani-Sadr — Mr. Rajai and Mr. Rafsanjani — are

Mr. Rafsanjani was said to bave left the party building shortly be-fore the explosion. Mr. Rajai, who is not a member of the party but is supported by it, apparently was absent. Mr. Nabavi did oot attend the meeting.

But without Ayatollah Beheshti the Islamic Republican Party and its supporters may find the burden of projecting Islam onto modern politics and economics even more difficult

What is more, the viciousness and accuracy of the bombing—on a level far above that of past attacks by religious or political extremists — demonstrated the organization and skill of whoever the party's opponents were in this

The fact that the opposition at-tempted to wipe out virtually the whole leadership, apart from Aya-tollah Khomeini, suggests that it does not intend to sit back and let the clergy-cootrolled establishment pick up the pieces.

Apparently two powerful bombs were placed near the speak-er's platform in the building while Ayatollah Beheshti...was address-region."

ing some ministers, Majlis deputies and others," Pars said, ft said the explosives had been hidden in a rubbish bin.

However, Mr. Nabavi told Tehran Radio that "the explosive was in a great quantity and had been placed in the school next to the building."

Week of Mourning

Premier Rajai, urging Iranians to be calm but to "report any sus-picious matter," declared Monday and Tuesday holidays, and shops close as a week of mourning began for the victims.

In a speech at a mosque near his home in north Tehran, Ayatollah Khomeini was reported by Pars to have said: "This unexpected event has engendered the sorrow of our nation." The revolutionary leader blamed youths "deceived by imperialism" for setting the blast.
Surviving officials — among them Ayatollah Hussein Ali Mon-

tazari, whose son, Abbas Gholam Mobammed Montazari, the Tehran prayer leader, was killed in the blast — blamed "the criminal America and its mercenary

The Islamic Revolutionary Party said in a statement: "While warning America, we declare that the more severe its plots become, the more organized and revolotionary the Iranian people will become. America and Israel cannot terrorize the Iranian revolotion by assassinating Iran's revolutionary figures. The Iranian revolution shall advance until the hands of Ameri-

favourite all

Mr. Nabavi denied what he called assertions by foreign radio stations that the explosion was part of a planned military coup.
It could have been done by a group of, say, four people,"

He did not blame any specific group but suggested that Mr. Bani-Sadr's supporters among liberal and nationalist parties and leftist guerrilla groups could have been involved, as well as the United States. Tehran Radio charged that the explosives were "planted by agents of America."

Dissidents' Claim

A shadowy Iranian dissident movement claimed responsibility for the attack. A man claiming to represent the Nationalist Equality Party headed by Gen. Muhtar Karabag telephoned international news agencies in Ankara on Monday to say that his organization had planted the bomb.

Iranian Embassy sources in An-kara said that they had heard of the group bot that they did not

take the claim seriously.

The caller said: "The Nationalist Equality Party militants have fulfilled the orders of Gen. Muhtar Karabag and eliminated the mur-derer chiefs." He said the group also claimed the bomb attack Saturday on a leading clergyman, Sayyed Ali Khamene'i, in a south Tehran mosque. Mr. Khamene'i was reported to be hospitalized but

The bombing Sunday followed a week of executions of opponents of the clergy, notably supporters of Mr. Bani-Sadr.

By William Claibome

Washington Post Service JERUSALEM - Both major political parties in Israel's general election predicted victory in Tuesday's balloting as nearly 2 million voters prepared to go to the polls.

The opposition Labor alignment said Monday it is encouraged by a sampling from the Dahar public opinion research organization showing a result of 43 seats for Labor and 40 for the ruling Likud coalition headed by Prime Minister Menachem Begin. However, even if Mr. Begin fails to gain a majority in the parliamentary elections he may be able to form a coalition with the assistance of the religious

Another possibility is that neither party will gain a working ma-jority and if no government can be formed, another election will be oecessary. "Right now, it doesn't look so good," said an aide to Mr. Begin. "We peaked too early, and we're starting to think in terms of another election.

In the Tel Aviv headquarters of the Labor alignment, however, there was considerably more opitmism. "We would have liked to have turned the tables a little bit carlier, but finally things are changing for us," said David Sawyer, a campaign adviser to Shi-mon Peres, who is heading the Labor ticket.

Neither party was willing to predict the outcome of the vote, since Israeli voters are volatile and moody, susceptible to influence by last-minute events and campaign

An advantage to the Likud is that it has already made an agreement with the National Religious Party and the Agudat Yisrael religious faction to set up a single parli-amentary front on the basis of Tuesday's vote. By law, the presi-dent of Israel, Yitzhak Navon, is obligated to approach the party or they have a majority and ask them to form a coalition.

WORLD NEWS BRIEFS

Senior French TV News Executive Leaves Job The Associated Press PARIS — A senior television news executive left his job Monday, the

latest victim of the shakeup in France's state-owned broadcasting system.

in the wake of Socialist election victories.

Jean-Pierre Elkabbach, who headed the news department of the country's second television channel, had refused to resign following Socialist charges that broadcast officials favored center-right candidates in the

recent campaigns.

Former President Valéry Giscard d'Estaing, defeated by Francois Mitterrand, had handpicked the heads of France's three television channels and the state radio network, and influenced assignments to news posts. Last week Maurice Ulrich, chairman of the second channel, and Roland Faure, head of news at Radio France, resigned.

South African Police Free 10 Black Students 💆

JOHANNESBURG — The police have released 10 university students arrested last Friday in a pre-dawn raid, a security police spokesman said, a Monday.

The students, all black, apparently were detained in connection with the investigation of a flag-burning incident on the campus of the Univers sity of the Witwatersrand.

A prominent member of the opposition, Helen Suzman, called the arrests a scandal and said her Progressive Federal Party would raise the issue during the coming parliamentary session. "This is a prime example, of overkill over an incident which could have simply been disapproved of and forgotten," Mrs. Suzman told the Rand Daily Mail.

Britain Supports Proposed Sale of Observer

United Press International

LONDON — The Trade Department indicated on Monday that it would approve the proposed sale by Atlantic Richfield Co. of The Observer newspaper to the British conglomerate Lonrho, Ltd.

Trade Secretary John Biffen said that he would support a report published Monday by the Monopolies and Mergers Commission recommending approval of the sale to Roland Rowland's Lonrho.

The takeover by Lonrho would be subject to several conditions set on after the report has been circulated, Mr. Biffen said. The commission voted 7-1 in favor of approving the sale. The sale of any large newspaper

voted 7-1 in favor of approving the sale. The sale of any large newspape must be referred to the commission under British law.

Congratulations on six World-Class Records

On Monday, June 15, 1981, Joachim, "Jo", Blumschein, businessman-pilot, claimed six new world-class performance records for business class propjet aircraft. The records were set in the following categories:

 \square fastest time-to-climb to 3,000 meters (10,102 ft.) in 2 minutes 12 seconds

☐ fastest time-to-climb to 6,000 meters (19,944 ft.) in 4 minutes 40 seconds ☐ fastest time-to-climb to 9,000 meters

(29,786 ft.) in 8 minutes 08 seconds ☐ fastest time-to-climb to 12,000 meters

(39,629 ft.) in 14 minutes and 00

maintained level flight record at 13,777,0 meters (45,200 %)

absolute altitude record of 14.325,6 meters (47,000 ft.).*

Jo Blumschein flew our Gulfstream Commander Jetprop 980, a standard aircraft for business flights. Once again his records prove that on average European middle-range flights the Gulfstream Commander is almost equivalent to fanjets in performance and flying time. However, it uses 50% less fuel.

Five of these records now broken were also held by earlier models of Jetprop Commander aircraft. The 12,000 meter record was set for the first time.

We extend to Mr. Blumschein and his BAT-Air Flugdienst GmbH at the Cologne/Bonn airport our best wishes for the future - may it be as successful as the past!

That was "First Class"!

Please send information material on the "Gulfstream Commander Jetprop".

U.S. Forces Reportedly to Seek **Widened Powers to Retaliate**

By Richard Halloran New York Times Service

WASHINGTON -- Secretary of Defense Caspar W. Weinberger has instructed the armed forces to acquire the capacity to launch a conventional retaliatory strike against the Soviet Union wherever it would be to the United States' advantage, according to senior Pentagon officials.

The officials said that Mr. Weinberger, in one part of his first fullscale policy guidance to the mili-tary services, had ordered them to prepare contingency plans, train forces and acquire weapons to enable them not only to counter a Soviet attack in one place but also to strike back in another.

"If the Soviet Union attacks somewhere," one official said, "we might well choose arenas for our response where we have the advan-

 The administration will seek a 7 percent annual growth in military budgets after inflation. That would bring the 1983 military tary budget for the fiscal year beginning in October, 1982, hardens budget to about \$260 billion, or pared with \$222 billion in 1982.

UN Units Reported to Underwrite Press Articles on 3d World Issues

WASHINGTON - Agencies of the United Nations have underwritten articles on Third World subjects through payments to Inter Press Service, a Rome-based news agency, the Washington Star re-ported Monday.

The newspaper said various UN agencies paid \$449,000 this year to Inter Press, a cooperative of 200 correspondents, editors and translators serving 450 subscribers in about 50 countries, mostly in Latin America and the Caribbean. The sum was said to be nearly 10 percent of the cooperative's revenues.

Last month it was revealed that Japanese industrialist paid for UN-produced supplements in 16 foreign newspapers.

Victor Sutton, network conrdinator for IPS in Rome, described his agency as "a service by Third World journalists for Third World media, with details and treatment differing from other international news services or national news services, which are looking at issues

Greece Hit by Temblors

PATRAS, Greece - More than 100 tremors shook the island of Zakinthos and the western coast of the Peloponnesus hut caused no injuries or damage, a police spokesman said. The Athens Observatory said the epicenters of the Sunday night tremors were 180 miles (288 kilometers) west of Athens.

little more than add money to programs already under way. The 1983 budget, therefore, pro-

from a national point of view," the UN officials were quoted as saying they only suggest topics and that articles they finance do not carry the Inter Press logo. The Star said the articles often appear with no indication they were financed by the United Nations.

Squatters Strip As Festival Ends

The Associated Press NUREMBERG - An International Squatters Festival where vi-olence had broken out over the weekend ended Sunday night in minor conflict after a group of young demonstrators romped naked on the festival grounds, police said Monday.

Passers-by offended by the nudity traded insults with the squatters, and several persons got into scuffling matches at the site, but authorities did not intervene, according to a police spokesman.

He said the naked demonstrators were part of about 400 squatters left from the weekend festival, but did not estimate how many undressed. About 1,000 persons attended the Iestival, according to police estimates. Five persons, including two policemen, were injured Saturday night when youths vandalized buildings and threw rocks at police cars, according to police.

 While expanding the strategic nuclear deterrent, the administration will emphasize preparations for a long conventional war.

 The military will prepare for worldwide war in which operations in one region are planned in conjunction with operations in other theaters, eliminating the concept, followed by several earlier administrations, of wars limited to one region.

 Greater emphasis will be given to intelligence and warning systems to alert the armed forces to conventional or nuclear attack and to communications apparatus to enable the president and senior officers to move forces forward when a threat appears and to withdraw them quickly when it recedes.

 While new weapons will be developed and bought, more emphasis will be given to getting present weapons and equipment ready for battle and to stockpiling the ammunition, fuel and other supplies to sustain a long fight.

• Particular attention will be

given to building ships and aircraft that would enable the armed forces to project power to remote regions and to send ground forces there.

The administration will give priority to rebuilding the industrial base to manufacture weapons and equipment. Officials said that Mr. Weinberger planned to name a prominent industrialist soon to

First Strike Barred

ead this effort.

The officials said the policy guidance reaffirmed the longstanding nuclear strategy of precluding a first strike against an adversary. But it added a new requirement, that U.S. nuclear forces be strong enough not only to survive an at-tack and to retaliate but also to retain a capacity for further deter-

The policy guidance also in-structed the military to prepare to combat terrorists, to fight chemical warfare and to explore possible military advantages in space

The policy guidance was drawn up under the supervision of the newly reconstituted Defense Review Board, headed by Deputy Secretary of Defense Frank C. Carlucci. Composed of senior offi-cials in the Defense Department, it is, in effect, the department's executive committee.

The policy guidance also said that the Reagan administration would insist that West European allies and Japan contribute substantially more to the common de-

The Reagan administration will seek large increases in military aid Egypt, Turkey, Saudi Arabia and other nations. Senior officials contended that, despite congres-sional objections, such assistance was an economical way to build forces to oppose Soviet expansion.

A man identified as Giuseppe Santangelo, at right, was arrested after guards said that he had tried to bomb St. Peter's Basilica.

Man Is Arrested During Attempt To Explode Bomb in St. Peter's

VATICAN CITY - Vatican mards arrested a man Monday as ne tried to set off a bomb inside St. Peter's Basilica, police reported. They said the guards spotted the man as he lighted the fuse of the bomb, a metal tube packed with explosive and lead pellets.

The guards put out the flame and police took the man into cus-

tody. Police said the man, tentatively identified as Giuseppe San-tangelo, 54, of Salerno, appeared to be mentally unbalanced. He was held at a police station near the Vatican without charges, pending

a check on his identity.

The attempted bombing was the first reported in the Vatican. On May 13, Pope John Paul II and American women

Regime Resigns In Indian State

NEW DELHI — The govern-ment has resigned in India's northeastern state of Assam, where nearly 300 people have died in anti-immigrant violence.

The state's chief minister, Mrs. Answara Taimur, a member of Prime Minister Indira Gandhi's Congress-I Party, resigned Sunday after several leftist groups decided to withdraw support for her minor-

ity government. The resignation coincided with departure of anti-immigrant leaders for talks in New Delhi on their demand for the expulsion of illegal immigrants.

sions about whether the Pentagon picks up the Boeing proposal. Meanwhile, Boeing's effort has

By Walter Pincus Washington Past Service

WASHINGTON -- Boeing, concerned that the giant MX missile system may be in trouble, has begun briefing members of Congress and officials at the Pentagon on an alternative system — a small inter-continental ballistic missile that the company says it could huild and begin deploying by the end of

Congressional opposition to the ambitious and expensive MX system continues to build, and its future is far from certain. "It looks like the king might die," a key Senate aide on military matters said recently in describing the MX situation. "So it's not surprising that companies are pushing other contenders forward.

But while Boeing is promoting what its own briefing book, obtained by The Washington Post, calls the "SICM" (for small ICBM), it is not eager to discuss the MX alternative publicly: "There is no way company offi-cials will discuss the small ICBM," a Boeing spokesman said.

The company's hesitancy may stem from the propriety of Boeing, a major MX contractor, pushing an alternative to MX. Another possible reason for its reticence is that the Boeing official most responsible for developing its SICM concept. Thomas K. Jones, has just concept, the Boeing administration joined the Reagan administration as deputy undersecretary of defense for research and engineering for strategic and theater nuclear

On Its Smaller Alternative to MX Missile ning in 1977, to develop the MX and the controversial multiple-shelter protection plan for Utah and Nevada Boeing's strategic missiles organization worked at designing concepts associated with a smaller missile that could be based on existing military facilities.

What Boeing has come up with is a missile that is 38 feet (about 12 meters) long and weighs about 22,000 pounds (10 metric tons) as compared to the MX, which is to be about twice that long and about nine times heavier. Boeing proposes to build 3;350 of the smaller missiles, each armed with one warhead: The Carter adminis-tration planned 200 MX missiles, each of which would have 10 warheads for a total of 2.000.

As more and more opposition emerged to the MX basing plan. Boeing fashioned several alternative ways of deploying the small missile, each of which would over-come problems encountered by the

Boeing has worked out two mo-bile basing schemes. One, called the "road mobile," calls for the missile to be on a truck, parked during non-crisis periods on mili-tary bases. In a crisis, the mobile launcher would drive to a "pre-surveyed roadside site" from which it could fire its missile.

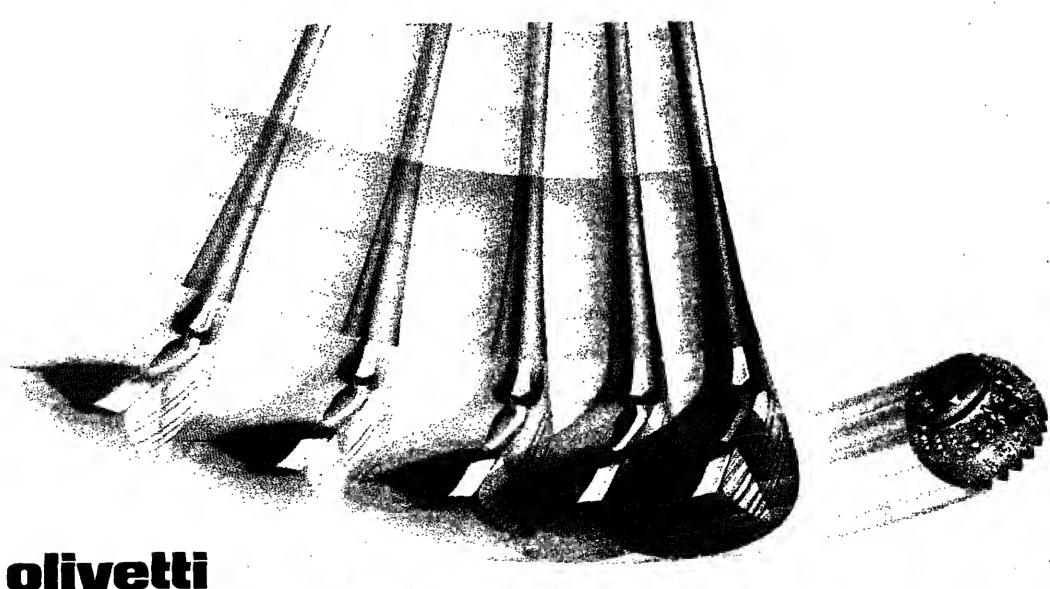

Another version of that, called the "beehive concept," has the truck launchers parked on a base and the warheads stored together at another hardened site. At crisis time, the launchers and the warheads are mated and driven to

Gunman Killed In Atlanta Siege .. New York Tunes Service

Iraq's Hussein Seeks Better U.S. Relations

By Edward Cody

Washington Post Service WASHINGTON - President Saddam Hussein of Iraq, adding to signs of increased moderation in Baghdad, has said that he is interested in expanding diplomatic con-tacts with the United States despite Israel's use of U.S.-made aircraft to bomb an Iraqi nuclear

Mr. Hussein's remarks, in a U.S. television interview Sunday, oc-curred against a backdrop of extraordinary U.S.-Iraqi cooperation 10 days ago in negotiating a UN Security Council condemnation of Israel for the bombing of the reac-

They also included two careful refusals to reiterate longstanding Iraqi rhetoric calling for replacing Israel by a secular state, and they seemed to be part of a calculated emphasis on conciliatory positions to gain as much international good

U.S. and Egypt Sign Accord on Sale of Reactors

Linted Press Interes WASHINGTON - The United States and Egypt Monday signed an agreement on nuclear cooperaunder which the Egyptians may buy two large reactors to produce electric power.

The agreement, which can be overruled by a majority of both houses of Congress, grew out of an informal commitment by former President Richard M. Nixon in the closing days of his administration in 1974 in which he offered nuclear assistance to both Egypt and Isra-

attiman K

a Mantai

Israel decided in 1979 not to join the arrangement, which would have required that its nuclear installations be subject to international safeguards and inspections. As a preinde to Monday's agreement, Egypt signed the Nuclear Non-Proliferation Treaty in February.

Secretary of State Alexander M. Haig Jr., who signed the agreement for the United States, called it "a model ... precisely the kind of agreement that we need in the Middle East."

The agreement is part of an Egyptian program which eventually will cover eight reactors that will provide 30 percent of the country's electrical power. The United States will not provide any direct financial aid for the purchase of fuel

Riptides Hit California

The Associated Press LOS ANGELES - Southern California lifeguards pulled about 3,000 persons to safety as riptides caused by rough seas made weekend swimming hazardous, officials said. No drownings were reported.

will as possible, particularly in the United States, following the attack on the reactor.

"American leaders have ex-essed their wish to develop relations and to give them an opportu-nity for Iraq to be sure that they are now thinking with a new men-tality toward issues regarding the ality toward issues regarding the Arab nation and the Arabs in general," the Iraqi leader said. "So we are giving ... them a part of this opportunity by moving the diplomatic relations further, through the official meetings of the American charge here, and to treat him as a head of a diplomatic mission."

as a head of a diplomatic mission."

Iraq severed diplomatic relations with the United States after the 1967 Middle East war. But U.S. diplomats work in Baghdad in a U.S. interests section, technically under the Belgian Embassy, and Iraqi diplomats work in Washington in an Iraqi interests.

ington in an Iraqi interests section of the Indian Embassy.

Despite his otherwise encouraging words on U.S.-Iraqi relations, Mr. Hussein repeated Iraqi suspicions that the United States knew in advance of Israqi selement. in advance of Israeli plans to bomb the reactor, saying, "the question mark is very big bere."

Mr. Hussein, who was speaking in Baghdad, was questioned for half an hour. He responded in Arabic and his remarks were translated simultaneously into English for what was said to be his first interview on U.S. television.

The Iraqi leader insisted that the French-built Osirak reactor near Baghdad was not part of an effort to develop nuclear weapons. Mr. Hussein recalled that scientists from France and the International Atomic Energy Agency have sup-ported Iraq on this point.

At the same time, Mr. Hussein reiterated his call last week for an Arah nuclear weapon to enable Arab nations to deter Israel from use of nuclear weapons against them, saying, in the words of his

"That is to establish balance between the Israeli bomb. which Israel now actually possesses, and what with the Arabs not possessing any such weapon that will make Israel hesitate before using her nuclear arms against Iraq."

On the existence of Israel, President Hussein avoided the tradiuonal Iraqi insistence on dismantling the Jewish state. In an apparent effort to soften the public definition of Iraqi policy by reducing its clarity, he said:

I am saying clearly that the Arabs must oot accept that they should be ruled by the Israeli law .. How the future will be as to how, and how this entity [the Israeli state) is going to be, or what potential does this have, how the lews and Arabs will coexist with-out any aggressioo or usurpation, or oppression, this is something left for the masses, the people to

prisoners of war."

The division does not station women with forward armored and armored infantry units. But the report noted that "female soldiers are, in fact, positioned well forward in the battle area" and "play

2 Other Concerns There is little disposition among

senior officers to dispute these findings. Their concerns are in two other fields.

One is the impact on male soldiers of seeing a female soldier taken prisoner or disintegrating under shellfire. What, senior officers ask would that do to discipline and

A second, more far-reaching question centers on whether the Army has used female soldiers in the most efficient way.

"About 40 percent of one medical unit are women." a staff officer said. "A lot of them are litter bearers. We've found that women do not have the upper hody strength to carry wounded to safety in the required time. They're willing, God knows, but the strength isn't

Another officer said that, as military police, women would be taking on assignments beyond their

In Combat, Educational Shortcomings Racial friction is no longer the problem in the 7th Army that it was five or six years ago, although about 30 percent of the command is drawn from minority groups, mainly blacks, and some units are more than 50 percent black.

Little in Common

Most of the black soldiers are from cities of 250,000 or more, while the majority of the white soldiers are from smaller cities and rural areas. The two groups thus have little in common

have little in common. "On duty they have no problem gening along," an armored infan-try officer said. "The polarization...starts when they're off duty." Unit commanders re-

ported few racial incidents. Drug use among soldiers in the 7th Army has declined sharply, while alcohol ahuse has risen. The educational skills of many

soldiers are a problem. The commander of a mechanized infantry hattalion said that, of the 760 men in his pattalion, 184 "can't read or add." He rotates 20 to 30 of these soldiers to school, which means that they fall behind in their com-

has training.

Despite these difficulties, senior noncommissioned officers find most of the new soldiers easier to train than those who entered the Army five years ago.

Everyone at Wimbledon now uses a Rolex.

The pony roller. Too wide to be removed from any Centre Court exit!

It is rumoured that The Championships of The All England Lawn Tennis and Croquet Club were started in order to raise funds for the repair of the Club's pony roller. The roller at that time was used to maintain the croquet lawns.

What is certainly true is that, on Monday, 9th July, 1877, the 22 entrants assembled at the Wimbledon courts in Worple Road for the Men's Singles Championship (the only event).

From such inauspicious beginnings developed the most prestigious tennis championships in the world. The championship every player dreams of winning; then dreams of winning again.

In those far-off days of the early 1870s much was done to popularise the new game by a Major Wingfield who offered for sale a

boxed version of the game. It was marketed under the unlikely name of "Sphairistike."

At various country houses up and down Britain, croquet rapidly went "out" and lawn tennis or "sticky", as it was

nicknamed, was "in."

Thus, those first Wimbledon Championships were a natural reaction to a fast-growing game that was virtually unheard of ten years before.

Yet that first pioneer committee did far, far more than simply set up a tennis tournament.

For the first time, the size and shape of the court: the position of the service lines together with the height of the net were set down in writing. Except for minor adjustments over the next three years, these dimensions remain the same today.

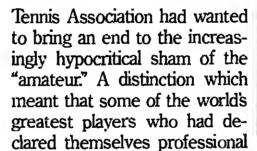

But many would say Helen Wills (Moody). Eight times ladies' singles champion in the '20s and '30s. greatest achievement was the new scoring system. (Previously the racquets method

of scoring was used.) This system brought periods of heightened tension and points of high drama to

the game. And no-one has ever improved on it. In modern times, The All England Club did

much to bring about open

tennis in the late 'sixties. For some time both The All England Club committee and the Lawn

could not, under existing International Lawn Tennis Federation rules, compete at Wimbledon. Finally, the I.L.T.F. yielded to British pressure and Wimbledon became truly open once more in 1968.

Superficially, Wimble-

don today looks much

as it must have done in

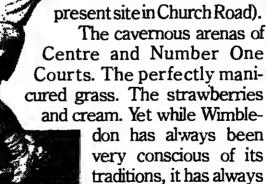

the 'twenties (when the

tournament, having

outgrown its original

venue, moved to its

The Australian musice, Rod Large reacted quickly and progressively to the ever-evolving needs of the game, the players and spectators.

And times have changed at Wimbledon. The Rolex Watch Company of Geneva have been asked to replace and update the entire Wimbledon timekeeping system. Throughout the grounds, 22 clocks have been replaced. On court, digital clocks inform

spectators of both the time and the duration of the match. The entire system is controlled to an extreme degree of accuracy by radio signals transmitted from Geneva.

But not only spectators rely

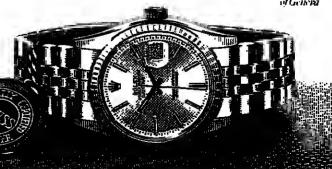

on Rolex for perfect timing. Many of the world's top players choose a Rolex Oyster as their personal timepiece.

Its tough, rugged construction (it takes 162 separate operations to carve an Oyster case from a single block of metal) provides more than adequate protection for its pre-

cision movement against the power and controlled violence of the modern game.

One thing about Wimbledon, however, will never change. The winner on the day will be the player with the determination, strength, and ROLEX immaculate timing.

Change, Perhaps, in Italy

There are historical changes whose meanings are fairly obvious, or if not, at least amenable to only one or two interpretations. Such was the case with the elections of Ronald Reagan in the United States and Francois Mitter and in France. In each instance, the electorate expressed its will and a party that had been in the shadows for roughly a quarter century emerged to grasp power and attempt to set the country on a new course. It is not the case in Italy, where for only the second time since the end of World War II, someone other than a Christian Democrat has formed a government. Ferrucio Parri, the first postwar premier, was an Independent. He served for five months.

It is not clear what, if anything, the selection of Giovanni Spadolini, whose Republican Party represents a bare 3 percent of the electorate, tells us about the future of Italian politics. Nevertheless, it is a historic occasion. If nothing else, the Christian Democrats, who are still the dominant force in the country, have conceded the right of an outsider to head the government. They were prodded into doing so not by Mr. Spadolini - journalist, professor, renowned trencherman and politician-come-lately — but by Bettino Craxi, leader of the Socialist Party. who brought down the government of Arnaldo Forlani over the P-2 Masonic scandal. Mr. Craxi, whose party gained several percentage points in municipal elections last week at the expense of the Christian Democrats and the Communists, is in the wings. If Mr. Spadolini fares about as well as his predecessors have on average in the last 36 years, his Socialist colleague will have less than a year to wait.

But that's getting ahead of the game. Mr.

Spadolini has formed a government that looks remarkably like its Christian Democratic predecessor to do battle with Italy's 20-percent inflation, terrorism and scandal. It is not self-evident that he will be more successful, or even that he will be able to diverge in any significant ways from previous policies. He has spoken out in favor of a social contract between labor and management and suggests that his position as the head of a marginal party will enable him to function as an arbitrator between the Christian Democrats and other members of the government. That may be, but in the end he will have to persuade Christian Democrats or he will not be able to govern. Perhaps his strongest card is that the Christian Democrats are somewhat in tatters at the moment and would like to avoid parliamentary elections any time soon. For that reason, they will hesitate to provoke a government crisis.

Mr. Spadolini will also have to contend with the Communists. The Italian party is the largest in the West and it is second only to the Christian Democrats in Italy. The new premier has said that he will work with the Communists, but he added that it is unlikely that they will be asked to join the government. The situation in Italy is radically different from that in France, where Mr. Mitterrand commands an absolute majority in parliament and can pay his debt to the smaller French Communist Party without fear that it will run away with the government.

In the meantime, a 36-year reign has been broken. No one can tell yet whether it is an aberration or a moment of critical change. Except for the premier's party, though, everything looks suspiciously familiar.

INTERNATIONAL HÉRALD TRIBUNE.

Fine News About Shoes

President Reagan appears ready to eliminate quotas on shoe imports from Taiwan and South Korea. That is fine news. For while the consumers' stake in shoes may be more modest than in steel or autos, the restriction is an extravagantly expensive way to preserve jobs and profits.

The Carter administration ordered restrictions on shoe imports in 1977 to deflate congressional pressure for yet tougher restraints. Taiwan and South Korea were forced to accept four-year "orderly marketing agree-ments" that reduced their shipments of lowpriced footwear by 16 and 19 percent, respectively. American shoe producers acknowledged that this would raise shoe prices. But the agreement, they argued, would give the domestic industry time to raise productivity and preserve American jobs.

The industry was certainly right about prices. The staff of the Federal Trade Commission estimated the 1978 increase to be about 18 percent. But there is no evidence that domestic manufacturers made any special effort to increase productivity.

By the Commerce Department's reckoning, investment in new equipment actually declined while the agreements were in force. And although jobs were indeed preserved, the cost has been astronomical. An economist at Johns Hopkins, Charles Pearson, estimates that America's shoe bill for every job saved amounts to \$22,000 a year.

The American economy could survive another four years of such "orderly marketing agreements." Shoes are simply not important enough in the consumer's shopping bag for the higher prices to matter very much. But the symbol surely does matter. If a minor industry of no strategic importance can demand and get protection costing \$22,000 per job, who is going to say no to really import-

THE NEW YORK TIMES.

Women and the Draft

i ne decision of the Supreme Court sustaining the constitutionality of the male-only draft registration program is hardly surprising. To rule otherwise, the justices would have had to explain away almost 200 years of history and stare down a Congress that sees the draft and registration as social and political, not constitutional, issues.

What is surprising, however, is the rationale with which the court's majority reached its decision. By implication, it sanctioned laws that bar women from participation in combat and authorize the drafting of disproportionate numbers of men and women. Since one of the principal arguments against registration of both men and women was that this would lead inevitably to a draft in which equal numbers of each sex were conscripted. the decision sets the stage for a quite different debate the next time this issue arises.

The court's rationale, as set out by Justice William H. Rehnquist, goes like this: Women are barred by law and military policy from comhat. The draft Congress had in mind when it approved the 1980 registration program was one designed to produce combat troops. Therefore, Congress could discrimi-

sex was qualified to do the joh it had in mind and the other was not.

Besides being somewhat circular, this argument rests on laws and policies about combat fitness that are presumed, although not ruled, to be constitutional. And it stretches the legislative history of the registration bill a considerable way to come up with a factual underpinning for what the court says Congress had in mind. Our impression is that what Congress was getting ready for was a draft, like those of the past, that produces bodies to fill non-combat as well as combat positions. If that reading of congressional intent is accurate, the explanation of this decision simply evaporates.

Be that as it may, the decision dumps the whole problem of women and the draft back in the congressional lap. By having deferred so completely to the judgment of Congress on what is constitutional in military matters. the court has come close to giving Congress carte blanche in future draft laws. The court implies that Congress could draft all men to serve in combat units while drafting one of, say, 10 women to serve in personnel jobs.

THE WASHINGTON POST.

A Smoke-Filled Argument

Just a few months ago, those of us who believe that cigarette smoking is a major public health problem clutched gleefully at the results of a study from Japan. It contended that nonsmoking wives of heavy smokers develop lung cancer at an astonishing rate; simply breathing the smoky air of the marital domicile could be half as dangerous as actually smoking.

What a boon to the anti-smoking crusaders! Smokers too foolish to quit for their own sakes might now be motivated by concern for their loved ones. Endangered spouses might rise up and force smokers to drop the noxi-

Alas, some American statisticians now believe the Japanese study was distorted by a

critical error in arithmetic. The issue is not yet resolved, and the Japanese scientist is sticking by his results. But it is clear that his findings are at least open to question. Meanwhile, a new study by the American Cancer Society finds that nonsmoking wives of smokers have little if any increased risk of lung cancer.

Now wives who want their busbands to quit have to go back to the old complaints cigarette smoke smells up the house, stings the eyes, aggravates breathing problems. Beyond that, whatever smoking may do to hystanders, it kills off an enormous number of

Seventy-Five Years Ago June 29, 1906

NEW YORK - An amazing panic among the Hebrew population on the East Side this morning sent mobs of agonized men and women clamoring about a score of schoolhouses shouting that the children's throats were being cut. The story started from operations performed by the Board of Health to remove adenoid growths from the throats of several scores of backward children. Cheap practitioners started the tale of a contemplated massacre and police reserves had to be summoned to quell the rioting at the school doors. In Washington President Roosevelt approved a resolution of the two Houses of Congress expressing harror at stones of massacres of Jews told by Jews coming from Russia.

Fifty Years Ago June 29, 1931

PARIS - One of the most devastating and spectacular fires Paris has known for years swept a portion of the Colonial Exposition vesterday morning and destroyed the huge, exotic Netherlands building with its entire collection of valuable exhibits. Loss is estimated at \$2 million. The blaze started from a short circuit in the wiring, and was first seen by a night watchman at 4:30 a.m. By that time the great building was enveloped in smoke, and flames were beginning to lick the vast pagoda roofs and carved sides. Fifteen native Balinese dancers were asleep in the building at the time and were routed out of the burning structure. The natives fled half-

The Real Post-Honeymoon Mandate

WASHINGTON — This may go down in political annals as the Year of the Invented Mandate. Treasury Secretary Regan, defending tax cuts, says President Reagan "was elected on this basis." Vice President Busb says congressional opponents of the president's spending and tax proposals would "thwart the mandate of the people." Budget chief Stockman says cuts in social programs are dictated by the elections, and Nevada's Sen. Laxalt says of anti-aborting. pro-capital-punishment and other conserva-tive causes: "That's what the election was all about. It is part of the Reagan mandate."

All this may be good politics, but it certainly is nonsense, If the administration is going to keep it up, there is little choice but to reply emphatically. That is not what the election was about. The accumulating evidence makes it quite clear that the November returns provided none of these claimed mandates. Nor did they represent the broader "historic political realignment" that some observers have suggested. observers have suggested.

Supposed Tax-Cut Mandate

The more bimited and tentative messages of the election are clear in the findings of the 1980 American National Election Study at the University of Michigan's Institute for So-cial Research (ISR), These findings bear scrutiny if we are to avoid inflated rhetoric that is contrary to the majority's wishes and could lead back to deep disillusionment with

the political system,

Consider the supposed tax-cut mandate,
The reality, the ISR study shows, is that less than half the Republicans and independents and only a third of the Democrats who vnted for Reagan favored his tax-cut proposal. He clearly was not "elected on this basis." And an ISR survey of consumer attitudes last month found only 41 percent of respondents believing they would be better nff under Reagan's tax and spending program.

The same holds for the administration's

across-the-board cuts in social programs. The election provided nn "mandate" for this drive. The ISR study confirms other findings that voters in 1980 continued to express long-standing support for these programs. In slightly increased preference for government spending, not the cuts the administration is now pushing through Congress.

Reducing outlays was not as important as some have argued in deciding the election. Less than half the Democrats who defected to Reagan expressed a desire for less govern-ment spending. Nor has a significant shift in preferences for social programs been detectable in polls taken since the election. Least nf all can one find evidence of a "mandate" on abortion. In November, as for a decade, the country was firmly committed to a woman's right to have an abortion.

What did the election say? The vote was an expression of growing American worry about inflation, economic growth and U.S. military strength and prestige abroad - not a clear endorsement of specific means for solving

Thus, despite Reagan's sweep of the electoral college, the 1980 election was not ideo-

More or Less

In Leopold Unger's article "Intellectuals Quietly Astir in Huu-gary (1HT, June 22), there is a

mention of the Hungarian magic cube puzzle with 3 billion possible

solutions. As it bappens, there is just one solution, but there are 43,252,003,274,489,586,000 possible positions — all but one of them

The number 3 billion was a wild

estimate made by the distributors

sure what the number was.

By Arthur H. Miller

logical. Ideology played a less important role in 1980 than in 1976 or 1972. A majority of both Carter and Reagan voters favored higher military spending. But they did not view this sudden preference — a response to events in Iran and Afghanistan — as a trade-off for reduced outlays in long-supported social programs. Rather, military increases were supported in addition to do-

mestic programs.

Administration officials argue that there is no affordable compromise between guns and butter, but voters accepted something else candidate Reagan told them: that there is

extensive waste and incompetence in government. The support for reduced spending that voters did express was more a response to the belief that waste and incompetence can be cut in all areas, defense included, than a rejection of Great Society programs.

The Reagan emphasis on defense spending indicates a belief that the most effective way to deal with sagging prestige abroad is through increased military capability. But the ISR study shows that much of the concern voters expressed in this area was based on what they saw as an inconsistent Carter foreign policy and an overly conciliatory re-lationship with the Soviet Union. Thus, the study suggests a belief that creative and consistent diplomacy and international leadership would do more than a stronger military

resence to restore U.S. prestige.
It should be clear from all this that Reagan did not bave a mandate for most of his policies at election time. The administration's repeated claims to "mandates" can be seen as an attempt to create a popular consensus, either hy inventing popular wishes or using selective evidence to support its case.

The administration can cite survey results showing a majority favoring increased defense spending, but ignore the majority supporting more outlays for social programs. It can invoke the majority for decreased federal powers, but conveniently forget the majority that wants a federal gun control law.

Whether such strategems succeed in build-ing a popular conservative mandate and an enduring political realignment depends mainly on whether Reagan succeeds in res-

toring health to the economy and American prestige abroad. If he does, he will no doubt be in a stronger position to promote other conservative changes and cement emerging Republican gains.

There has been an increase in persons identifying themselves as conservatives (from 37 percent in 1978 to 44 percent at the end of last year). And the South and the Mountain States have been experiencing a sectional partisan realignment. With the misectional partisan realignment, with the im-gration to these regions have come a larger Republican base and an increased popula-tion, giving Republicans greater clout in na-nional elections. The ISR study shows that this population shift played a more signifi-cent out than idealogy in habiting Parabli-

cant role than ideology in helping Republi-cans win control of the Senate.

Other groups in the past decade bave also shown a steady shift from the Democrats but their preferences on social issues lie much closer to those of the Democrats.

Political Deterioration

If the Reagan administration should fail to fulfill the large expectations that the ISR studies show it has created — renewed prosperity, reduced inflation, less unemployment, a more equitable tax burden and greater prestige abroad - certain results are fairly

re presinge anroad — certain results are tainly predictable.

Volatility in American politics would continue and Reagan would risk joining the growing list of one-term presidents. Traditional party loyalties would suffer a further decline, accompanied by increased challenges from minority parties and independent candidates. Cries for extreme remedies around grown loyales and citizen ferrors for would grow louder, and citizen fervor for changes in the candidate selection system

might intensify.
Citizens' frustration with government failures and the feeling that voting doesn't make a difference would continue to grow. Trust in government, which the study shows sank to a historic low just before the November election, would decay again.

Perhaps most important, there might be a qualitative shift toward what appears to be a new ideology of discontent, one directed not at reform but at dismantling government and its programs, regardless of future consequences. This ideology, based on an active rejection of political institutions and of authority, could take years to reverse.

Arthur H. Miller, an associate professor of political science, is senior study director of the

yarus, more than 100,000 catterns of Poznan, mainly young workers and students, had joined them in a peaceful march toward city hall. Little by little, slogans arose, then banners. At first the crowd called for "bread and justice," but quick-

ly came demands for "liberty and independence." The police moved in, trying to disperse the march but succeeding only in making the protesters more determined. The march broke up into several columns. One moved on to the city prison and released all the political prisoners. Another assaulted the radio jamming system that prevented Poles from listening to Western broadcasts. Another two columns, the largest and londers threatened the headman.

and at least a potential for increased Republican identification — in particular, Catholics and to a lesser extent, young people. A serious political realignment, however, would face major obstacles. Relatively few people switch party allegiances; it is rather those lacking party attachments — predominantly younger persons — who present the chief opportunity for realignment, and they do not have homogeneous political views. Young independents look like Republicans in their views on certain economic programs,

1980 national election survey at the University of Michigan's Institute for Social Research. He wrote this article for The Washington Post.

process under his rule. Just ask the bers, to take life instead of giving

The dates are a history lesson. Poznan was the first episode in a series of anti-totalitarian Polish national rebellions, None of these movements succeeded fully, but none was a a total failure; each left a mark and each was a dramatic but necessary step toward the Poland of today, that of Solidarity

and hope.
It was the experience of the Stalin factory that showed the workers of the Lenin shipyards that they should not go out in the streets, but stay at the plant and occupy it. The lesson of 1956 and of the other rebellions that followed made it clear to the workers of 1980 that they should not let themselves be seduced by the promises of the Communist Party.

Today, as 25 years ago, Moscow and its friends in Poland are not happy. Today, as in 1956, the Kremlin uses threats against Poland when reforms follow a worker rebellion and when the Communist Party wakes up to the fact that it cannot govern against the peo-

In 1956, the Central Committee of the Soviet Communist Party sent a warning to Poland against the "imperialist plot and revisionist subversion in the country." This year Moscow sent a letter-ultima-tum using the same terms and the

Yet there is a difference. In 1956. the party succeeded in fooling the workers and swallowing up the re-form movement. It cannot do that today. Wherever the current reform movement may lead the trend of events in Poland cannot be reversed. Soviet Agriculture Seen Still Suffering From Brutal Legacy of Stalin's Policy

By Kevin Klose

MOSCOW — It is an irony of history that the Soviet invasion of Afehanistan, which triggered former President Jimmy Carter's grain embargo against Moscow, began 50 years to the day — Dec. 27, 1979 — after Stalin announced his "policy of liquidating the kulaks" or private farmers and soon launched the systematic destruction of Soviet agriculture.

The decree that followed the dictator's decision in 1929 brought a four-year reign of terror to the Soviet countryside, transforming what had been the grain-exporting breadbasket of Europe" into a land of chronic shortage.

Today, despite a huge nuclear arsenal, impressive space program and vast industrial strength, Sta-lin's legacy has left the Soviet Union uniquely vulnerable to the vagaries of sun, seed and sweat labor. With the Carter reprisal now history after 18 months, debate in the United States over using what Agriculture Secretary John R. Block calls "the food weapon" to pursue national strategic goals seems likely to subside into a welter of confusion and disagree-

Basic to the debate is the question of whether any Soviet leader-ship could have the will and political self-confidence to replace Sta-lin's rigid centralization of the agrarian sector from which the Communist Party — as in the Soviet industrial sector — derives much of its power, or whether col-lectivized agriculture by its very nature is a terrible idea whose time should never have come.

If money can buy a solution, then Soviet President Leonid L Brezhnev should be approaching

Grand Jury Bid In Atlanta Case Put Off to July 7

ATLANTA --- A prosecutor said Monday he probably will wait until after a new grand jury convenes on July 7 to seek an indictment of Wayne B. Williams in the murder of one of 28 black youths.

Fulton County District Attorney Lewis Slaton said it is unlikely he will seek an indictment on the last day of the current grand jury session. A new grand jury will not convene until July 7.

Mr. Williams, 23, a black freelance photographer, is being held in the Fulion County jail charged with murder in the death of Nathaniel Cater, 27, the most re-cent of 28 black youths slain in a string of killings spanning almost

Mr. Williams' attorney said Sunday she is worried that publicity about evidence against her client will prejudice potential jurors and make him "the 29th victim." But attorney Mary Welcome said she has not yet decided if she wants the trial moved to another city if Mr. Williams is indicted.

During the hearing last week at which a judge allowed Mr. Slaton to seek an indictment against Mr. Williams, police officers testified they heard a splash in the Chattahoochee River on May 22 shortly before Mr. Williams was seen driving slowly over the bridge. Mr. Cater's body was found in the river downstream from the bridge two In Indian State

For Anti-Zia Protests

KARACHI - Pakistan's banned political parties called on Monday for protest meetings next Sunday to mark the start of the fifth year of military rule by President Mohammed Zia-ul-Haq.
A statement by the Movement

for Restoration of Democracy, which groups eight of the country's main political parties, said the meetings would also protest the detention of political prisoners and recent food price rises.

that goal. More than any other Soviet leader, he has sought to cure the problem by throwing money at it. At the 1976 party congress, he proudly amounced that 2 out of every 3 rubles invested in agriculture "in all the years of Soviet power had come during his ten-ure, a total of 213 billion rubles from 1966 to 1975. (A ruble is worth about \$1.60 today so his in-

NEWS ANALYSIS

vestment would equal \$353.6 billion at that conversion rate.) In 1976-80, the party set aside 172 hillion rubles (about \$287 hillion) more and has earmarked 190 hilhon (\$304 billion) in the current five-year plan. In all, more than 20 percent of publicly acknowledged Soviet spending oo capital investments bas been devoted to agricul-

Combined with endless tinkermg by planners and organizers in Moscow to grant some local auton-omy, raise woefully low mechan-ization levels, establish integrated agro-industries along the lines of those in America and encourage private farming in ways that Stalin and Khrushchev would have vetoed, the torrent of money has

brought major gains in production.

Between 1966 and 1976, Mr. Brezhnev has boasted, grain harvests rose 40 percent, labor productivity 58 percent, and agricul-tural products per capita by 25 percent despite a population growth of 23 million. Since 1966, 50 million oewly irrigated or drained acres have reportedly been put into cultivation and thousands of miles of roads built in the remote countryside. The infrastruc-ture of processing plants, storage and handling facilities has expanded enormously from October, 1964, when Mr. Brezhnev came to

With the use of expensive imported grains, farm chemicals, feed additives and other measures, per capita_meat production rose, and some Western analysts believe the goal of lifting meat production 2 million tons to 18 million in 1985 can be achieved with luck and ap-

Trend Changes

But the trend oow is the other way, with annual increases of about 4 percent in each of the years from 1950 to 1971 by the approximately 20,000 state farms (sovkhozes) and 27,000 collective farms (kolkhozes) slumping toward 1 percent in the period from 1971

With 50 percent more land in cultivation than the United States and 20 percent of its work force in farming, as opposed to 4 percent in the United States, Soviet net production still lagged about 20 percent behind the United States in the mid-1970s.

These are not grave problems. The Soviet Union has advanced far from the famines brought on by collectivization and World War

Almost anywhere within the collectivized farm system, loss and waste are phenomenal. Beginning with the earth itself, state experts say more than a billion tons of fertile topsoil are lost annually from

bad plowing methods.

Pakistani Parties Call

> The state's chief minister, Mrs. Answara Taimur, a member of Prime Minister Indira Gandhi's Congress-I Party, resigned Sunday to withdraw support for her minor-

> ity government.
> The resignation coincided with the departure of anti-immigrant leaders for talks in New Delhi oo their demand for the expulsion of illegal immigrants, mostly Bangla-deshis, from the state.

I.G. Farben Liquis

is traded on all stock exchanges of the Federal Republic of Germany under Securities Identification No 575907. Paradoxically, these shares are currently priced 20 times lower than those of the IG-Farbenindustrie subsidiary Riebeck-Montan, which are now quoted at no less than DM 300 each (= por value of 100 Reichsmark), despite the fact that judged by inherent conditions L.G. Farben Liquis shares ore of far greater intrinsic value. Now a celebrated attorney, known for highly successful prose-cution of several restitution claims by victims of the Nazi regime against the Federal Republic of Germany, has reviewed recently completed docu-mentation on indemnification claims by shareholders mentation on indemnification claims by shareholders of IG-Farbenindustrie AG for purposes of negotiation with the Federal government, with the objective of representing the Interests of I.G. Farben Liquis shareholders. The documentation is being published 30 June 1981 in the Frankfurter Allgemeine Zeitung and elsewhere. Addressed to the government of the Federal Republic of Germany as a petition for redress, the documentation furnishes sensational proof that I.G. Farben Liquis shares, in strong contrast to their extremely low market value of currently less than DM 15 each (= par value of 100 Reichsmark), actually represent a maximum value of DM 6,554 each. Perhaps never before in the history of international securities trading has a stack been so undervalued by the market. I am certain that the long overdue adjustment of dramatic proportions is imminent and recommend that every I.G. Farben Liquis investor

Relinquish not a single share!

Götz-Hildebrand Striem og 7, D-1000 Berlin 28, Tel.: 0 30-4 04 50 51.

The party oewspaper Pravda has described how mineral fertilizer, needed to improve the thin soils, often is shipped in open or leaky

freight cars.
"By the time it reaches the client, it [is] a solid lump," the article said. "Crowhars, sledgehammers, sometimes even a Caterpillar tractor is used to hreak it up." A researcher said that losses "run more than 200 million rubles [\$320]

million] a year." P. Vavilov, president of the Len-in All-Union Academy of Agricultural Sciences, told Pravda last summer that "less than 100 million tons of straw are used for livestock feed annually. The rest, more than half the total, disappears or is burned." Bad combines contaminate the straw with dirt, or miss the best stands. At a time when So-viet livestock need high-protein legume feeds to fatten on, Mr. Vavilov said, legume acreage dropped from 7 percent to 4 percent of ar-

Featherbedding, administrative bungling and chicanery foul the complex bureaucratic maze, blunting directives and thwarting goals. While Premier Nikolai Tikhonov told the party congress in February that "farms are to be much better equipped with powerful tractors" and the power-to-worker ratio would increase 50 percent by 1985, a report from 1979 in the government paper Izvestia showed how plans and promises from oo high are diluted by the very differ-

ent reality in the countryside.

N. Matukovsky of Izvestia reported that one recent year, Byelorussia's Mogilev Province farms received 2,500 new tractors

—and promptly scrapped 1,821.
University of Chicago agro-economist D. Gale Johnsoo recentreported that daily work production per Soviet tractor actually declined slightly in the period from 1970 to 1976.

But in the world of ideology, a lack of results carries its own costs, eroding party credibility when it claims to run the country effectiveand to improve the lives of the Soviet masses.

Dalai Lama

The Dalai Lama To Stay in Exile

LONDON - The Dalai Lama. self-exiled spiritual leader of Tibet, said he had turned down an invitation by the Chinese government to return to his homeland.

"I feel that for the present I can serve the Tibetan people better from the outside," said the Buddhist monk whose followers believe he is a divine reincarnation. He has lived in exile in India for the last 22 years. "I am just a servant of the 6 million people in Tihe added on his arrival in London Monday for a five-day vis-

Moscow Chess Champion Urges Visas for Korchnois

By Serge Schmemann New York Times Service MOSCOW - The awards ceremonies of the Moscow Open Chess Championship followed the usual pattern of congratulatory speeches, inside jokes and handshakes until the winner, Boris Gulko,

asked to speak. The officials and participants in the ornate main hall of the Central Chess Club settled quickly and quietly. It was common knowledge that Mr. Gulko, an international grand master and the Soviet cham-pion in 1977, had oot played in a major tournament since he and his wife applied to emigrate to Israel in December, 1978.

Speaking oervously and rapidly, Mr. Gulko declared that he had vritten an open letter to the Soviet Chess Federation insisting that it take actioo to secure the emigration of the wife and son of Viktor Korchnoi, the defector who is making his second bid oext fall to wrest the world chess crown from the Soviet Union's Anatoly Kar-

The silence after Mr. Gulko's hrief declaration Sunday night was hroken by a hesitant mutter from the first row, "That is politics ..."
Then the chairman of the Moscow Chess Federation, Fyodor T. Konstantinov, abruptly called oo the next speaker.

After the awards presentations, however, many players and guests paused in shake Mr. Gulko's hand. One elderly man was heard to say. You don't know me, hut I want to coogratulate you - first for

Brooklyn Bridge Mishap

The Associated Press NEW YORK — A pedestrian walkway on the Brooklyn Bridge was closed for repairs Monday after two 600-foot cables snapped and fell onto the bridge, injuring one man and halting traffic for nearly three hours. The cables, installed as wind stabilizers when the bridge was erected in 1883, had been corroded by the droppings of pigeons that roost in the twin towers of the bridge.

Peking Duck With Burgundy, a New Cuisine?

By Julie Brossy
United Prest International

TONG KONG — Despite Rudyard Kipling, East did meet West — at a banquet table in Hong Kong in a marriage of French wine and Chinese food.

The twist to chopstick diplomacy was conceived by two European gastronomes who boped it was the start of a long-overdue union between two great traditions.

At a four-hour, 13-course banquet co-host-

ed by food researcher Gyula Cey-Bert and French restaurant critic Henri Gault, Peking duck met Burgundy, birds' nest met Bordeaux, and 25 guests are copiously.

The dinner was an attempt "to create a harmony between the world's most sophisticated food and its most outstanding wines," said the Hungarian-born Cey-Bert, who heads the Institute of Alimentary Research

Cey-Bert and Crault staged the repast with help from the Hong Kong Tourist Association as a prelude to a symposium in November, where some 100 gournets will explore the theme more thoroughly.

Cey-Bert, relaxed and glowing at a post-banquet interview, admitted that the harmonious blending of French wine and Chinese food is a challenge but maintained that both countries had similar attitudes towards eating, which favored the union.

"Both French and Chinese cultures embody an ongoing search for new combina-tions of food," he said, adding that neither the French nor the Chinese are overly inhib-

ited about what they put into their mouths.

French savor frogs legs, and "if Adam and
Eve had been Chinese, they would never
have been expelled from the garden of Eden because they would have eaten the serpent, said the 42-year-old psycho-sociologist.

Warming to the subject, he noted that "harmony can only be achieved between contrasts, for example between man and woman. "It's the same with food - Chinese cooking is very feminine - French wine is mascu-

line. Chinese cooking needs a busband," Search for Immortality

Cey-Bert, who believes that eating represents man's quest for immortality, supports his research into the metaphysics of food with consultancy contracts.

He predicts an increase during the next decade in the focus on foods that represent safety - in Europe, bread and wine, in the United States, hamburgers, and in Asia, rice. Cey-Bert said he was first inspired to com-hine French wine with Chinese cuisine during a visit to Hong Kong in 1977.

I ooticed that the Chinese were drinking

tea, brandy, or rice wine," he said. He eventually met up with Gault and his publishing partner, Christian Millau, and

they planned the symposium to be held in Hong Kong Nov. 22-29. Gault, 51, has championed the cause of

Chinese cuisine in France since the 1960s, with the help of Le Nouveau Guide, a monthly magazine with a circulation of about 150,000, and an annual restaurant guide, both in collaboration with Millau.

Ever since Marco Polo brought back gun owder, silk, and noodles from the Middle Kingdom, the Chinese have been waiting for something from Europe, Gault said.

"Now, we bring French wine to the cuisine Canton, Peking and Sichuan," he said. Guests at the initial Chinese-French banquet began with sautéed fresh water shrimps accompanied by a 1978 Meursault, a white Burgundy.

Then came fresh scallops with honey-glazed bam, steamed fish with black mushrooms, and a combination of Peking duck and pate de fois gras. The accompanying wines were 1978 Corton-Charlemagne, white Burgundy, and a 1977 Chambertin, red Bur-

To follow, guests tucked into winter melon soup, smoked pigeon, green turtle and veni-son, spicy ocodles and dumplings, and wound things up with sesame pancakes, ly-chees stuffed with birds' nest, broad bean rolls, 1976 Châtean Lascombes, red Bor-deaux, and 1979 Barsac, white Bordeaux.

Personalities

Clothing and Sex: A Quick Zip Through Fashion

By Hebe Dorsey

ONDON - Sex and fashion often travel hand in hand. 'Skin to Skin," a study of eroticism in dress, should put the point across clearly. It is being written by Prudence Glynn, former fashion editor of The Times of London, and is scheduled for publica-tion late this year by Allen and Unwin. It is her second book; her first, "To Fashion," a study of the social implications of dress in the 20th century came out in 1979

20th century, came out in 1979. Glynn recently left The Times but, "after 15 years, fashion remains my major interest and concern. But now, I must move on. I've always been a maverick, any-how," she said. "When I mentioo I'm writing an erotic fashion book, men's eyes light up and they think I'm writing about knickers and kinky stuff, but I'm not."

A prolific writer, Glynn also contributed introductions to Deprett's "The English Gentleman's Mistress" ("English Gentlemen simply do not have mistresses") and "The English Gentleman's Wife" ("Ladies do not work.")

Panov's 'War and Peace'

Insernational Herald Tribune

Parational Herald Tribune

BERLIN — When Valery Panov seeks a subject for a new ballet, he does not shy away from works of literature which would daunt more timorous natures. For his last choreography for the ballet company of the Deutsche Oper he chose Dostoyevsky's massive novel "The Idiot." Now he has favored us with nothing less than Tolstoy's "War and Peace." It has had a sharply mixed criocal reception here, but the enthusiastic opening-night audience almost shouted the house down.

This project got off to an unpromising start. Originally, Panov wanted to use musical excerpts from the opera Sergei Prokofiev had made out of Tolstoy's masterpiece, and for many months he worked with that music

Tolstoy's masterpiece, and for many months he worked with that music in mind. "Finally," Panov says, "it was Mrs. Prokofiev who decided that she did not want a ballet of the same name as Sergei Prokofiev's opera. which had a mixed reception."

Four Hours of Tchaikovsky

With Prokofiev's music denied him, Panov desperately considered works by many composers "from Berlioz to Borodin" before he finally settled on Tchaikovsky. Perhaps inevitably, "War and Peace" as a ballet lasts for four solid hours, which means listening to an unmerciful

amount of Tchaikovsky in patchwork patterns.

Panov, in addition to his choreography, danced the role of Pierre at the premiere Saturday, with his wife, Galina, almost stealing the show as Natasha. The company has made a number of its finest dancers available to Panov, and he has assembled an impressive cast, including Heidrun Schwaarz as Helene, Linda Thorp as Sonya, Jean-Pierre Liégeois as Ana-

tol, and Sandor Nemethy as Napoleon, all of them outstanding. Tom
van Cauwenbergh made a forceful Berlin debut as Andre.

Michael Heise conducted, except at the very beginning when he
played the first movement of Tchaikovsky's most famous piano concerto with Yoshikazu Tanaka filling in on the podium. The use of this particular music raises a fundamental question of aesthetics. In any concerto, the conductor should follow his soloist. But any ballet conductor has to give primary consideration to his dancers. An instrumental soloist in the

BUSINESS NEWS BRIEFS

Digital Offers Desktop Word Processor

· June 20

MERRIMACK, N.H. — Digital Equipment Monday said it planned to introduce a small business word processing system with prices starting

at \$6,793.

It said deliveries of its "Decmate" system will begin in Angust. The first public showing of the "multipurpose word processor" will be the International Word Processing Association's annual convention, which begins Tuesday in Atlanta, it added. It said Decmate was "the lowestpriced system currently available."

Diamond Shramrock Sees Loss on Units' Sale

Dallas — Diamond Shamrock Corp. said Monday there will be a charge of about \$99 million, or \$1.76 a share, against second quarter earnings on the sale of its plastics and animal outrition businesses, currently under negotiation.

Shamrock said this reflects the estimated loss on discootinuing the

businesses, which are among five it identified last year as being under consideration for sale. Because first quarter earnings will also be restated to reflect the discontinued operations, the effect for the six-month period will be a loss of about \$108 million, or \$1.91 a share, the company said. The company previously reported first quarter earnings of 85 cents a share, down from \$1.06 a share a year earlier.

Talbot to Build Horizons in Britain

Reusers

LONDON — Talbot Motor Co., Peugeot's British subsidiary, said Monday it has agreed to a £10 million investment program with Peugeot to produce the Horizon car line at Coventry.

It said work will start soon to reconstruct the main car assembly areas at the Ryton works, where Horizon production should start at the end of this year. So far, the Horizon has been huilt only at Talbot's Poissy plant in France. Horizon production at Coventry will be added to the Talbot Solara and Alpine models, the company said.

United Motor Works to Buy Fiat Distributors

SINGAPORE — United Motor Works (Malaysia) Holdings said Monday it had agreed to acquire the entire issued capital of Syarikat Fiat Distributors for 45 million ringgits (\$19.4 million).

It said the purchase will be satisfied through the issue of 4.5 million

new United Motor Works shares at 7.50 ringgits per 1 ringgit share, and a cash payment of 11.25 million ringgits.

UBS Predicts Decline in Profits for 1981

ZURICH - Union Bank of Switzerland said Monday that its 1981 net profit may decline from last year's record 334 million Swiss francs

In an investment study, UBS said 1981 results may be adversely affected by higher costs, lower commission earnings and decreased revenue from foreign exchange and precious metals, but that credit demand is expected to remain strong.

SSIH Sets Transfer of Quartz Production

BIENNE, Switzerland - Societe Suisse Pour l'Industrie Horlogere said Monday it had reached agreement for the transfer of its industrial quartz production unit to Fordahl of Bienne.

SSIH said in April that it was terminating production of quartzes used in watches and by industry as part of a restructuring program after losses in 1980. The unit transferred to Fordahl employs 1g of the 74 persons previously working in SSIH quartz production. SSIH continues to make

Burda Family May Buy Share of Springer AP-Dow Jones

BERLIN — The Burda family, West German owners of several publishing houses, are considering acquiring a minority share in Axel Springer Verlag, publisher of several West German oewspapers and magazines, including the 4-million circulation daily Bild oewspaper, ac-

cording to a spokesman for Springer.

Springer Verlag is presently entirely held by Axel Springer, the sometimes controversial West German publisher.

A spokesman for Burda, which publishes the weekly illustrated maga-

zine Bunte and several other women's and television magazines, said the family was considering buying up to a 26 percent interest in Springer, but he did oot disclose the reasons for the purchase. Spokesman for Burda and Springer also declined to give the terms of the acquisition.

After First Rebuff, Seagram Now Goes After Control of Conoco

By Lydia Chavez

New York Times Service NEW YORK — Thirteen years ago the late Samuel Bronfman, who had made a fortunation had made a fortune in the Canadian liquor business, bought a small oil company in Texas for \$50 million in cash and the promise of more on the basis of its future production.

In 1980 his son Edgar sold the company for \$2.3 billion, and last week the 52-year-old chairman of the Montreal-based Seagram Co. took the proceeds and went after Conoco with a bid of \$73 a share, or \$2.55 billion, for 40.7 percent of the U.S. company.

To Mr. Bronfman, who became the chief executive officer of Seagram after his father died in 1971 at the age of 80, Concoco offers a chance to outdo the legend-ary patriarch who built Seagram into the world's largest distillery operation and then left a 34-percent interest to his two sons and

Edgar Bronfman became a U.S. citizen in 1955. His hrother, although he is deputy chairman of day-to-day operations of the com-

pany, according to a Seagram spokesman. Once Rebuffed

The 40.7 percent bid for Conoco might out have happened if it were not for a rebuff from Cococo, impeccable timing by Mr. Bronfman and the belp of Mark Millard, a 73-year-old Russian emigre who is senior managing director of Shear-son Loeb Rhoades.

It was in fact Mr. Bronfman's third proposal to Conoco. The first was made privately on May 29 in a takeover hattle with another Canadian company, Dome Petro-Shearson Loeb Rhoades was

terested primarily in winning Conoco's 52.9 percent interest in Hudson Bay Oil & Gas. When Conoco's shareholders tendered overwhelming 54.8 mil-

representing Dome, which was in-

lion shares in response to Dome offer for 22 million shares, there appeared to be enough left over for another suitor, and Mr. Millard, according to associates, turned to

The Seagram directors offered to buy 35 percent of Conoco but assured Conoco Chairman Ralph E. Bailey that they were willing to work out a friendly compromise.

'Very Disappointed'

The day after Conoco agreed to sell Dome its Hudson Bay interests for \$1.68 billion in cash and stock, a team from Conoco began to work with Seagram to sell another chunk of its stock. "Mr. Bailey felt more comfortable with an offer for 25 percent, so we weot with that," said a source at Seagram.

The formal offer to buy 25 per-cent of the company for \$2 billion included a promise from Mr. Bronfman to leave Conoco's management alone for 15 years. To his surprise, the offer was rejected unanimously by Conoco's board

friendly basis while Conoco was still involved with Dome," said a Seagram source, "but once that agreement was reached, we did oot feel obliged to continue on a friendly basis. But we did, and Mr.

by the board's decision."

Knowing that the Canadian

company might not back down easily, Conoco started merger talks with Cities Service. But an offer by Mr. Bronfman last Thursday, for 35 million shares of Conoco's 86 million outstanding shares, broke up the Coooco-Cities Service merger negotiations.
This week, Conoco's directors

are meeting to review the compaoy's options.

Unlike his friendly bid, Mr. Bronfman's latest offer leaves open the possibility of acquiring more sbares. "The first offer didn't sound like it was coming from Seagram," said Sandra Lowe, an analyst with A.E. Ames in Ottawa. "It's not their style to go after only

Oil Analysts See **Progress by Saudis On Cutting Prices**

By Andrew Hill

LONDON — Saudi Arabia's determined campaign to force other OPEC states to cut their oil prices could get results by the end of the year, Western oil industry analysts said Monday.

The Saudi oil minister, Sheikh Ahmed Zaki

Yamani, underlined the kingdom's resolve oo Saturday by denying Western press reports of a 450,000 barrels per day cut in Saudi oil production. In a telex to Reuters in Bahrain, Sheikh Yamani

said, "No decision has been taken to cut production."
With an output of more than 10 million barrels a
day, Saudi Arabia has flooded the world oil market to push down spot prices and make other Organizatioo of Petroleum Exporting Countries members reduce what they charge.

Analysts said Saudi Arabia was in sight of its goal and predicted that by the end of the year many OPEC states would have cut prices, which range from Saudi Arabia's \$32 a barrel to Libya's \$41.

The Sandis want to unify OPEC prices as a first step to a long-term strategy linking price rises to Western inflation, currency fluctuations and econom-Analysts at the Londoo stockhroker firm of Wood

MacKenzie said pressure for official price cuts was now most intense and could possibly lead to a unified OPEC price as early as the end of the year. Western analysis said OPEC's three major African producers, Libya, Nigeria and Algeria, are under the most immediate pressure to cut their official prices,

the highest in OPEC. Companies are now negotiating their cootracts to take African oil for the third quarter of this year and most analysts expect them to be paying less.

Venezuela and Ecuador, both OPEC members, have reduced prices and non-OPEC producers Mexico. Britain and Norway have made \$4 cuts. [However, oil industry sources in New York said

that Mexico is raising its crude by \$2 a barrel as of Wednesday due to domestic political pressure for

W. Germans to Back Steel Plan

LUXEMBOURG — A compromise agreement reached by the EEC last week on ending official subsidies to EEC steel makers by 1985 most likely will be approved by the West German Cabinet even though it considers the accord "disappointing and unsatisfactory," government spokesman Kurt Becker said Monday.

told reporters that West German Chancellor Helmut Schmidt would raise the steel issue at the two-day EEC summit meeting that opened Monday and explain his government's posi-

West Germany had campaigned strongly for the removal of subsidies paid by several EEC member states to their ailing steel

Mr. Becker said Mr. Schmidt would tell other EEC leaders that, while West Germany still dislikes the accord reached last Wednes day in Luxembourg on steel subsidies, a cabinet meeting this Wednesday is likely to approve it. But he said Mr. Schmidt will also warn other EEC countries that if the accord is oot fulfilled to the letter, West Germany would reserve its right to impose border levies or import ceilings for subsidized EEC steel.

After Rebuff, Seagram **Seeks Control of Conoco**

(Continued from Page 9) property to Sun Co. that not only save Seagram \$2.3 billioo but also assured it of keeping an interest in the property if it turns out to be

Naterior

are over

"That's Millard's style," said John G. McMillian, chairman of the Northwest Energy Co., the op-erating partner for the \$25 billion Alaskan natural gas pipeline. "He always gets in on the future, and it never looks like anything to everyone else, but it always works out to

be a heli of a deal." After completing the sale, Scagram organized a \$3 billion Eurocredit package and started to look around for a company to buy.

In March, a \$2.13 billion offer (at \$45 a share) was made for the St. Joe Minerals, which was han-dled by Lazard Freres & Co., the other dealer manager in Seagram's tender offer for Conoco.

Seagram withdrew the offer after Fluor Corp., the construction and engineering company based in Irvine, Calif., came forward with an offer worth \$56 a share.

"We didn't want to pay more than it was worth," said a source close to the Seagram bid. Seagram's board continued its search until it found Conoco, a company that analysts say has not performed up to its potential.

If Mr. Bronfman is successful with his offer this time, it is undear how much control over Conoco he would choose to exrcise. But analysts would not be urprised if some changes were nade in the oil company's man-

Once changes like these are nade, however, Mr. Bronfman has

a reputation for delegating authority. After he brought in Mr. Hinson and Albert Hrubetz, who was another Conoco executive, to run Texas Pacific they were left almost

entirely alone, according to Mr. "We had an unusual amount of autonomy," said Mr. Hrubetz,
"Once we learned about a certain foreign play but didn't have the money or the geological data to back us up, so we called up Edgar in New York and said we needed \$10 million right away. He said our information was weak, but he

U.S. Economy Seen Slowing

gave us the money oo the spot."

NEW YORK — The growth of the U.S. economy slowed in June, according to a monthly survey of purchasing managers in 225 indus-

"This is principally caused by high interest rates adversely affecting plans for expansion as well as affecting day-to-day operations," said the National Association of Purchasing Management, whose survey is regarded as the first authoritative indication of economic activity in a given month.

It said production rose more slowly in June than in May, while new orders showed oo growth in June after rising in May. Sixteen percent of the companies surveyed had more employees, up from 15 percent in May, while those report-mg fewer employees dropped to 15 ercent from 17. But inventories of ourchased materials showed little change, the survey showed.

Rollei name and continue produc-Rollei's collapse can be traced 10 a conflict between the company's effort to remain competitive by producing in low-wage countries and its desire to maintain the technical allure of its products.

Founded in 1920, Rollei built its reputation oo high-quality reflex cameras designed largely for professional photographers. But, by the early 1970s, the company was feeling the first inroads of Japae competition a threat it decided it could meet only by moving its production to a low-wage area. As a result, the company opeced

Machine Tools Off 47% in U.S.

New York Times Service NEW YORK - Machine tool orders in May fell 47 percent from the already-depressed levels of a year earlier, the National Machine Tool Builders Association said

The industry group said that or-ders totaled \$229.8 million in May, compared with \$434 millioo a year earlier. The May order rate was also 24.7 percent lower than in April, when orders totaled \$305 million. Year-to-date orders totaled \$1.44 billion, down 38.6 percent from orders of \$2.34 billion

Rollei Caught Between Old-Fashion Desires and Modern Market

By John M. Geddes

AP-Dew Jones BONN - Rollei-Werke Franke und Heidecke, the maker of Rollei reflex cameras, filed for liquida-tion proceedings over the weekend, perhaps signaling the demise of one of West Germany's most renowned names.

Negotiations were on a comper sation package for Roller's 700 workers in Brunswick and on the disposal of existing service and The moves were prompted by

the failure of lenders to grant more funds to reorganize and restructure the company. Rollei had expected to post a loss equivalent to about \$13.9 million this year on sales of \$75.7 million after a loss of about \$10.5 million last year on sales of

The liquidation currently applies only to Rollei's West German operation, but officials said the ramifications probably would also force the closure of Rollei Singa-pore, which has different owners and is a separate entity from the West German company.

Singapore Plant

Negotiations are still continuing over the fate of Rollei Singapore, but a spokeman for Rollei Singa-pore said last week that it plans to continue with business as usual since the insolvency proceedings in West Germany will have oo legal impact on the Singapore operation. Officials in Singapore ooted

in Singapore rose to 4,800.

Sales Boom Never Came

entry into volume marketings, such as producing cameras under other brand oames for department stores or film companies Adolf Kracht, chairman

for the year-ago period.

and proceeded to reduce its employment in West Germany and build up employment in Singa-pore. While employment in West Germany dropped from 3.800 in 1973 to 700 this year, employment

The only problem was that the plant in Singapore failed to live up to expectations. While it has remained profitable, its capacity utilization stagnated at about 60 percent. Last year, the company said only 37.000 reflex cameras were produced at a plant equipped to make 200,000 units.

Despite the excess capacity, Rollei long held back from any major

Elegant Club. Apartments from \$200,000 to \$2,000,000

Norddeutsche Landesbank, Rollet's past owner, noted that it was a mistake to "keep the capacity at Singapore on reserve for the expected great spring" in sales that

The company's trouble had its affect on the bank, which under

West German Loan Set at 1.5 Billion DM

Renters
FRANKFURT — The West German government plans a 1.5billion-Deutsche-mark loan with a billion-Deutsche-mark loan with a life of 10 years, carrying a coupon of 104 percent and priced at 99.25 to yield 10.37 percent, the Bundesbank said Monday.

It added that 1.2 billion DM will be issued immediately, with 300 million DM retained for market regulating purposes.

West German law is allowed to have industrial shareholdings and had gradually takeo over ownership of the company. Over the years, it has lent Rollei an estimated \$315.4 million, although a bank

official, while declining to give details, said the bank's current exposure and net lending is far less. The result was a search for a new

In April, Hannsheinz Porst, owner of West Germany's second largest photographic chain, Porst Verwaltungsgellschafts, assumed control of the company as head of a holding company that purchased the bank's stake. The price paid, said by Porst officials to be "very little," is widely assumed to have been nothing, indicating the bank's last-ditch bid to turn the company around.

Porst said Rollei had to reorgan-ize its product line, gear produc-

available and reduce employment

in Singapore. The plans never came to fruition, running afoul of one of the owners of the Singapore plant, oot included in Porst's purchase. The Singapore plant, although managed and ruo by Rollei, belongs 75 percent to Norddeutsche Landes-

bank and 25 percent to the Development Bank of Singapore. Winfried Harter, a spokesman for Norddeutsche, said the Singa-pore bank had decided against providing further capital or a decision that precipitated a simi-lar decision by the West German bank and the resulting liquidation.

Said Birgii Breuel, Lower Saxony's economics minister: "Better an end with dismay than dismay without end." The minister added, The state treasury can't pay ont my more to Rollei."

This advertisement is for informational purposes only. It is not intended and is not under any circumstances to be construed as an offer to sell or a solicitation of an offer to buy any securities of The LTV Corporation or of any other company.

Notice to Holders of LTV International, N.V., 5% Guaranteed (Subordinated) Debentures Due 1988

The LTV Corporation, a Delaware corporation ("LTV"), hereby gives notice to the holders of the LTV International, N.V., 5% Guaranteed (Subordinated) Debentures Duc 1988 (the "Debentures"), pursuant to Section 4.08 of the Indenture dated as of July 1, 1968 among LTV International, N.V., LTV as Guarantor, and Bankers Trust Company as Trustee, that LTV will distribute all of the Common Stock of Wilson Foods Corporation ("Wilson"). LTV's wholly owned meat and fund prinducts subsidiary, to the holders of LTV Common Stock and LTV Special Stnck, Class AA Accumulating Convertible (the "Distribution").

The Distribution will be on the basis of (i) one share of Wilson Common Stock for each 10 shares of LTV Common Stock held, and (ii) 1.5 shares of Wilson Common Stock for each 10 shares of LTV Special Stock held, at the close of business in Dallas, Texas on July 10, 1981, the record date for the Distribution (the "Record Date"). The physical distribution of the shares of Wilson Common Stock will be on July 31, 1981.

Holders of the Debentures will not participate in the Distribution. However, as discussed below under Alternatives Available to Holders of Debentures, the Debentures are convertible into LTV Common Stock at any time at the option of the holder, and holders who convert their Debentures on or prior to the Record Date will participate in the Distribution provided they are holders of LTV Common Stock on the Record Date.

ALTERNATIVES AVAILABLE TO HOLDERS OF DEBENTURES

1) Convert their Debentures into LTV Common Stock at a conversion price of \$23.36 per share (or approximately 42.81 shares for each \$1000 principal amount of Debentures). The closing price of the LTV Common Stock on the New York Stock Exchange on June 24, 1981 was \$22.75. Holders of Debentures who exercise their conversion rights on or before the Record Date (July 10, 1981), and who continue to hold LTV Common Stock on the Record Date, will participate in the Distribution and will receive one share of Wilson Common Stock for each 10 shares of LTV Common Stock held on the Record Date, Cash will be paid to the holders of LTV Common Stock in lieu of any fractional share of Wilson Common Stock.

2) Continue to bold their Debentures or sell them on the open market. Holders of the Debentures who do not convert on or before the Record Date will not participate in the Distribution. The closing price of the Debentures on the Luxembourg Stock Exchange on June 24, 1981 was \$96-\$97 per \$100 principal amount of Debentures. Holders who do not convert or sell their Debentures will continue to enjoy all the rights and privileges which attach to the Debentures.

IMPORTANT FACTORS TO BE CONSIDERED

1) Interest on the Debentures is paid annually on the 1st of July. Holders who convert their Debentures on or after July 1, 1981, but no later than July 10, 1981, in addition to receiving the annual interest payment due on July 1, 1981 will also participate in the Distribution provided they continue to hold the LTV Common Stock on the Record Date.

2) Following the Distribution, Wilson Common Stock will be traded on the over-tbe-counter market. No determination can be made with respect to the initial trading price of such stock. As of March 31, 1981, the pro forma net book value of the Wilson Common Stock is estimated to be at least \$13.96 per share.

MANNER OF CONVERSION

Holders may convert their Debentures into shares of LTV Common Stock by surrendering their Debentures, with all unmatured coupons appertaining thereto, to LTV at the office of one of LTV's designated conversion agents listed below (the "Agents"), together with a written notice of election to convert executed by the holder and specifying the name or names in which the shares of LTV Common Stock deliverable upon conversion shall be registered, and stating the addresses of the

The following are the Agents to which holders may surrender their Debentures for conversion, together with the written notice described above, either personally nr by mail. The Debentures and the required notice of election to convert must be surrendered to one of the Agents on or before the Record Date (July 10, 1981) in order for the converting holder to participate in the Distribution.

The IHT maintains a sense of proportion. You'd subscribe to that, wouldn't you?

People who shape the world can't afford to see it from just one angle. Nor to let nearby events obscure what's happening elsewhere.

Now High?

That's why successful people in 143 countries read the International Herald Tribune each day. Printed in Paris, London, Zurich and Hong Kong, it has a uniquely international vantage point... a world view that sheds new light on distant events and places national news in a global context.

Each day, the Trib carries over 40 international datelines. Rigorously objective fact balanced with astute analysis. Informed opinion spiced with

incisive humor. Plus sports and culture, features and funnies, puzzles and personalities.

Compact and concise, quick and clear, the Trib is designed to suit the lifestyle, fit the workstyle of today's decision makers. People who give each thing the time it's worth. People with a sense of proportion.

Receive the IHT every day at your home or office. Take advantage of our special introductory discount: 25% off the regular subscription rate or up to 42% off the newsstand price, depending on your country of residence. Return the coupon today. Benefit from a broader viewpoint.

BOOKS

MORNINGS ON HORSEBACK

By David McCullough. Illustrated. 445 pp. \$17.95. Simon & Schuster, 1230 Ave. of the Americas, New York 10020.

Reviewed by John Leonard

IKE Henry Adams. Theodore Roosevelt never got around to mentioning his first wife in his autobiography. Clover Adams and Alice Lee Roosevelt both died before they were supposed to. Alice, in fact, died on the same day that young Theodore's mother did. No wonder he went out later on horseback and shot and killed a dog that chased him. He also ruined the horse. Old families ---and the Roosevelts have been around since the 17th century - have deep passions; they don't talk about them; they just shoot dogs and birds.

Young Teddy — from about age 10 until, at age 28, he runs for mayor of New York against, of all people, Henry George — is the ostensible subject of David McCullough's new book. McCullough is the anthor of two pre-vious splendid social histories, one devoted to the creation of the Brooklyn Bridge and the other to the Panama Canal. He sticks in "Mornings on Horseback" to his period --- the cusp of the United States' two unruly centuries --- and he is incapable of writing a page of bad prose. But he seems to want to tell a different story.

Myopia and Asthma

Teddy's story, of course, has been told before although never better. The frail, squeaky-voiced myopic and asthmatic older son goes to doctors. Europe, Harvard and the Dakota Badlands to make himself a man. His father --- the Roosevelt family was in the plate-glass business and made millions --- is the perfect humanitarian. Without Theodore Roosevelt Sr., there might never have been an American Museum of Natural History, a Children's Aid Society, a Cleopatra's Needle in Central Park or any number of reforms having to do with asylums, jails and the Republican Party. By those asthmatic attacks, little Teddy was able to command big Theodore's perfect attention. We know now more than they knew then about the psychosomatic component of an asthmathat strikes in the night and, in Teddy's case, almost invariably on a Saturday night to secure a Sunday with

McCullough is as good on asthma as be is on taxidermy. He has, this time, applied his nuts-and-bolts approach to a human mind. It is not, perhaps, an accident that Teddy appears to have subdued his asthma at Harvard, where, for the first time in his life, he lived alone. Nor can it be an accident that, as a young New York state assemblyman and later a delegate to the Republican Conven-

Solution to Previous Puzzle

tion in Cincinnati, he makes a spectacle of himself, after his lather is safely

His father died of cancer and political disappointment. His mother --- the Southern belle whose family may have inspired Margaret Mitchell to write "Gone With the Wind" and about whom McCullough is gallant — died of typhoid. The amily also endured epilepsy, Bright's disease and alcohol-ism, very much like the family of William and Henry James. Being nich is being sorry. All of this is reported at least as skillfully as it was by Carleton Putnam, honored in an "anthor's note," and Edmund Morris, tucked away in the bibliography.

They spent money, these Roosevelts, on worthy causes and on themselves. Big Theodore, who paid a substitute to fight the Civil War for him, spent five times as much money in two months on the Nile, while httle Teddy was shooting birds, than the average American family of that time, had to spend in a year. Teddy's maternal grandmother had to sell four slaves to pay for her daughter's wedding and trousseau. Teddy himself, at the sell to the ding and trousseau. Teddy himsen, at Harvard, had an annual income, just interest, one-third larger than the salary of the president of Harvard College at which he was acquiring moral fiber. Big Theodore, by every account, was philanthropic to a fault, and also by every account he failed to dent the family fortune.

Big Theodore is the focus of "Mornings on Horseback." He was estimable. But Mittie Bulloch, his wife and little Teddy's mother, is a leitmo-tiv. Her bedtime tales of Confederate heroes inflamed the mind of the young asthmatic; he had a role to play in the Badlands; as he would later have on San Juan Hill, But Mittie isn't necessarily the most important woman in the book. She is merely given her due, a due withheld by previ-ous biographers. She bathes twice dai-ly — once to wash and once to ruse

and we are improperly amused. But consider Bamie, Teddy's sister, who seems to have been a hunchback and who loved Teddy more than she did her own husband. Like Alice James, she had the wasted mind in the family. Her sister Corie was equally devoted to the brilliant brother and likewise found domestic life unthrilling. Bamie is waiting around for a book: Jean Strouse probably has better things to do. Nevertheless, this circle of womanly love, of eager sacrifice, that surrounds so many successful men, especially older brothers, deserves a close and sympathetic reading, a kind of exorcism.

I could be wrong, and often am, but I felt throughout "Mornings on Horseback" that McCullough wanted to write a book about Mittle and Bamie, and then refrained The book he has written is excellent - we have no better social historian — but it doesn't address, out loud, that odd conspiracy of women that sabotages the self and encourages the machismo rubbish of a Teddy Roosevelt as he

John Leonard is on the staff of The New York Times.

By Alan Truscott

BRIDGE_

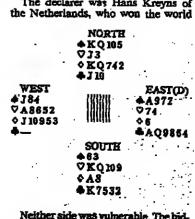

MILLENARY is much more pair championship in 1966. His part-important than a centenary. So ner, with whom he had helped his important than a centenary. So this department and other writers of the game were decidedly remiss 12 years ago in failing to note the millenary of playing cards.

Nobody can say exactly when play-ing cards were invented, but the first recorded reference to them was in China in the year 969 when each suit had 14 cards. This disposes, unfortunately, of the legend that a later emperor invented them to amuse his con-

Modern Chinese bridge-players, re-veling in the game since it became legal there 2½ years ago, had to be re-minded of their ancient contribution when players from many countries competed in Shanghai recently. A deal from the final play-off there reveals a subtlety and sophistication that could not have been dreamed of by the first card-players a millennium

South was a world-famous player who made two untypical errors, but it is a fair bet that no reader of the following description will spot both of them. The contract was three no-trump, reached after East had opened with one club.

South had one of the few hands that justify an overcall with a four- 0 1053 card suit: He could bid at the onelevel, he was not vulnerable, his suit was strong and he had opening bid values. North cue-bid to force further action and carried on to three notrump on finding his partner held a club stopper. The declarer was Hans Kreyns of

Neither side was vulnerable. The bid-East .

West North 17 Pass 24 ... 2N.T. Pass 3N.T. Pass West led the diamond jack.

country place third in the 1980 world team championship, was Hans Ver-goed. West was Nakamura Yoshiyuki, perhaps Japan's best player, and East was Hisatomi Hitoshi.

The lead was the diamond jack, won with the ace. South should now have led hearts, establishing three tricks in that suit while his club entry was intact. But a spade was led to the king, and East took his ace and shifted to the club queen. South won with the king and led the heart king, which

was permitted to win.

The diamond eight came next, and West covered with the nine. The queen wou in dummy, and the heart jack was led. South overtook with the queen, and West thought for a long time before winning with the ace. He returned the spade jack, and South took two spade tricks in dummy to reach this position. reach this position:

NORTH 43 **♦ K74** . . . 1.27 **4**5 WEST EAST 49 4A986 SOUTH **▽109**

4753 South had six tricks and needed three more. The big question now was: Who would win the last round of diamonds? And since West had the diamonds? And since West had the three-spot, he was in control of the situation. The diamond king was led from dummy, and Nakamura carefully played the five. When the next diamond was led, West won and threw dummy back in with the last diamond. to defeat the contract. East made two

Now it is possible to see where South made his other seror. At the first trick he should have played the four or seven of diamonds and preserved the dence. Then he would have been able to lose the last diamond trick, and he would have been able to score the two heart winners in the closed hand at the finish.

Will a declarer ever know enough about this difficult game to preserve the diamond deuce at the first trick? Perhaps when playing cards reach their 2,000th birthday in the year

Shriver Eliminates Austin From Wimbledon Tennis

للكامن الإصل

VIMBLEDON, England - Pam river upset fourth-seeded Tracy istin, 7-5, 6-4, Monday to reach semifinals of the Wimbledon mis tournament for the first

The tall 18-year-old American hthander moved into the final ur with Chris Evert Lloyd, Hana andlikova and Martina Navrati-

Lloyd, the top seed, downed ima lausovec of Yugoslavia, 6-2, 2. Mandlikova, the No.2 seed, ayed the most impressive tennis the day and crushed Wendy imbull of Australia 6-0, 6-0. Navratilova, who won the title re in 1978 and 1979, served and illeyed past Virginia Ruzici of omania 6-2, 6-3.

Lloyd and Shriver meet in 'ednesday's semifinals. Navrativa and Mandlikova play in the her match. 1-11 Over Austin

Shriver, who will turn 19 on Satday, had never beaten Austin in When we were really young I ordly won a game from her," niver recalled. "Then things got

lose, but she pulled away from me three match points before she again. People said it was psychological, but it wasn't. It was just that she was a better player than

They had played nine times as juniors and twice on the pro circuit. "I'm a lot smarter now."
Shriver said. "I play with my brain instead of my mouth."

Most Satisfying Victory

Their match kept the 14,000 fans at center court in a fever of excitement to the last point. Both players made a lot of errors, but Shriver, seeded seventh, had the edge with her bold play at the net. She began hy missing one volley after another. In one long game -the third of the match - st

missed six volleys, then held up six fingers, sadly shaking her head.

But her volleying improved as the match went on, and in the tense second set Austin had difficulty getting past Shriver at the

In a jittery second set, six of the first eight games went against ser-vice, and the rivals were tied 4-4. Shriver then held serve, with the help of a netcord, and nosed ahead

In the next game, Shriver had

Connors, Aged 28, May Be at Crossroad

New York Times Service WIMBLEDON, England hey are technical points, so subtle at Jimmy Connors may have takthem for granted over the years. at now that he is in the role of allenger instead of champion, onnors listens when colleagues int out flaws.

After his opening singles match Wimbledon last week, Connors scovered that he was releasing e ball too soon on his toss, thus sing some control on his leftinded serve. Arthur Ashe, the S. Davis Cup captain, reminded moors to toss the ball "a little ore to the left" for maximum

"I've been serving a lot better," nnors said Sunday — an idle y at Wimbledon — discussing a st week in which he scored imessive straight-set victories over ck Stockton, Chris Lewis, Tony ammalva and Wotjek Fibak. he serve is coming in heavier in in the past. It helps my volley d makes me go to the net a little

First-Week Talk

The first-week talk among the rg's bid for a six consecutive n's singles title; John McEnroe's nper and whether both could ik up where they left off last ir at 8-6 in the fifth set.

Connors, meanwhile, moved rough the draw so methodically - d inconspicuously that his most blicized moment of the week me last Saturday, before the mament began, when he ques-ned court scheduling and what saw as the indifference of umes toward players.

be considered," Connors, who in here in 1974, said. "He's the e who's out there giving his guts. hat the hell's the good of the guy the chair? If you're not going to aighten out problems, the play-

s got nothing."
This is an important Wimbledon r Connors, perhaps even a ossroad in his career. At No. 3 hind Borg and McEnroe, Conrs, now 28 years old, needs a gor title to maintain any hope of - Jaiming what he owned before he dismantled his armor in their

75 final. Back in Davis Cup

Connors is relaxed, satisfied th personal conditions around n. His retinue is family, not ends: wife, Patti, and son, Brett, to is almost 2 now and old ough to wave his own tennis racet in their flat at Knightsbridge. Connors has rejoined the U.S. ivis Cup team and will play in e inter-zone series next month in w York against Czechoslovakia.
and McEnroe, who exchanged iter words during last year's imbledon semifinal, have beme regular practice partners at de toward umpires and a mission end Borg's long reign, now at e consecutive championships d 39 straight matches.

"I think Jimmy's playing as well he can play," said Ashe, who stched all of the Connors and cEnroe matches during the first ek. "He spent a month practic-

Jimmy Connors ... relaxed and confident.

ing on grass - all for one tournafeels confident with his serve, evcrything else is going to go fine."

Connors's next opponent, Vijay Amritrai of India, is an accomplished grass court player. "Jimmy will have his hands full." Ashe said, "but one thing Jimruy has is determination. Vijay has a history of not closing the gate after the cows are in the corral."

Connors cannot afford to look ahead to a potential semifinal meeting with Borg. But if he does, he knows that he won their last meeting, at an exhibition in Toronto. Of course, Toronto exhibitions and the Wimbledon Centre Court are different venues, but confidence is a key to opening Borg's stored treasures of passing shots.

'I feel confident," Connors said. "I feel good physically and I've been taking things easy. The only thing I wish is I could spend more

time with my family." Connors has spent enough time on outside field courts in the first week to prompt his distaste for scheduling. Borg has played his last 30 matches on the Center Court and the No. 1 court, a situation that even Ashe termed unfair.

Borg said Saturday there was no advantage to the center or No. 1, hut Connors knows better after a humpy session against Lewis on a scarred No. 2 that was confined to doubles on Saturday.

"For me, sometimes the tougher the better," Connors said. you're going to be a true champion, you have to win under all con-ditions."

J.S. Justice Refuses to Return Suit iy Baseball Umpires to State Court

PHILADELPHIA — A federal ige Monday refused to send ck to a state court a suit seeking bar Lloyd's of London from ying major league baseball own-\$\$50 million in strike insurance ring the player walkout.

WOMEN'S SINGLES

Jerry Pale dives into the lake after sinking his final putt and winning the Memphis Golf Classic.

Pate Puts End To Golf Drought

MEMPHIS - Jerry Pate recorded his first victory in three years Sunday by winning the Memphis Golf Classic. He finished with a birdie on the last hole to fend off a challenge by Tom Kite and Bruce Lietzke, his brother-in-law.
Pate finished with a 3-under-par 69 to go to 14

inder for the tournament at Colonial Country Club. He then fulfilled a promise to leap into the lake off the 18th fairway upon winning. He swam 50 yards to the other shore as the spectators cheered.

The \$54,000 first-place prize money made Pate the oungest player in PGA history to earn \$1 million in Kite finished with a 68 for a four-round total of 276

and tied Lietzke for second place. Lietzke fired a 5-

Dennis Watson, making his first tournament start since winning his PGA card, finished in a ue for fourth at 281 with Peter Jacobsen, who began the round in second-place but hallooned to a 75 on Sunday. Watson, a South African, shot an eagle on No. 16 and closed with a 68.

Lee Trevino, the defending champion, unleased a string of three birdies on the back nine to finish with a 71, but it was too late to catch the leaders. He had a 6-under-par 282 to tie David Thore for sixth place.

Floyd Wins in Canada

KITCHENER, Ontario - Ray Floyd won the Canadian International Golf Classic Sunday by six strokes by carding a 1-under-par 71 in the final

Floyd overcame a bogey at the 4th hole with con-secutive birdies on the 8th and 9th and another on the 13th to beat back any possibility of a challenge. He finished with an 11-under par 277.

Daniel Talbot, whose meager professional experience includes the Space Coast tour in Florida, settled for a 1-over-par 73 to finish in second place at 283. David Graham was tied for third with Iwo Canadi-

Weaver Reported Set To Forgo \$3 Million **And Take On Tillis**

World Boxing Association heavyweight champion, appears ready to pass up \$3 million in order to hold

onto his title. Weaver already has signed to fight the No. 1 contender, Gerry Cooney, in October, But the WBA has told him be must first fight unbeaten James (Quick) Tillis and must sign for that bout before July

"I've worked too hard for that title. I don't want to lose it, even though I'd make \$3 million to fight Cooney," Weaver said in an interview published Sunday in the Chicago Sun-Times

Weaver asked the WBA to sanction the Cooney bout. But last week in Houston, the WBA's exec-utive board voted 16-0 to maintain its support of Tillis, of Chicago. The board set July 15 as the deadline for purse offers for a Weaver-Tillis fight, and gave Weaver an extension until July 25 to accept an offer and sign.

Title Over Money

"I really don't know if I'll fight Cooney now." Weaver was quoted as saying. "They've been waiting to see what I'm going to do and I've been waiting to see what they are going to do. I figure they'd been traine to scare me into fight. been trying to scare me into fight-ing Tillis by saying they're going to strip me of my title.

"But now I guess they're serious about stripping me. And I'm going to have to think this thing over. Cooney or Tillis. Right now, if I were to decide between \$3 million and my title, I'd rather have my title. It means more than money. It means more than anything. The only reason I've been holding back from fighting Tillis is to see what the WBA was going to do." Don Manuel, Weaver's mana-ger, said Sunday in Los Angeles:

Raleigh Bicycle Team Wins 5th Leg in France

CARCASONNE, France - The Raleigh team led by Gerrie Knetemann of the Netherlands won the 77,2-kilometer (48-mile) fifth stage of the Tour de France bicycle race Monday.

The Raleigh team won the race between Narbonne and Carcassone in one hour and 41.03 minutes or 19 hundredths of a second ahead of Peugeot. Knetemann retained the overall lead, one second ahead of team-

mate Ludo Peeters of Belgium.

"I hate for Mike to lose the title on a technicality. Mike has nothing to do with it and now I feel the fighter is being penalized by politics.

James Kaulentis, Tillis' mana-ger, said that after he returned Friday from Houston, where he at-tended the WBA executive committee meeting, Sam Glass, who is to promote a Weaver-Cooney bout, called him and wanted to

know if Tillis would take \$200,000 to fight Weaver. Kaulentis told Glass that he already had been offered \$250,000 by someone else to fight Weaver. Glass called back and told Kaulentis, "I'll give you \$250,000. I discussed it with Manuel. Come in Monday and we will talk."

Kaulentis said he did not intend to see Glass in New York on Monday but that he hoped to get all

parties together.
"I don't want to get involved in any litigation," he added. Manuel and Weaver have filed a

breach of contract suit against promoter Bob Arum, who wanted to put on a Weaver-Tillis fight last February. Kaulentis said that he is afraid Arum would seek to enjoin Weaver-Tillis fight promoted by anyone else. Tillis was the highest ranking

opponent available when Wesver reached a March 31 deadline requiring him to defend his title against the highest available con-

American Does 52,003 Sit-Ups In 32 Hours

SAN JOSE, Calif. - By performing a record 52,003 sit-ups in 32 hours, Steve Sokol, a 24 year-old engineer, was able to raise \$520 for the Red Cross on Sunday.
"I felt terrible right after i

finished and was running a fe-ver and my skin on my hack is really raw," said Sokol, who had received a pledge of one penny for each sit-up. He took five-minute breaks every hour and maintained his energy by eating nuts and cookies and drinking lemonade and water. Sokol trained for three months, doing half a million sit-ups prior to his recordbreaking feat. "But I never did

more than 12,000 sit-ups in one day." he said.

Baseball Commissioner Tells Why He Supports Compensation

Kuhn Breaks Silence on Strike

By Joseph Durso New York Times Service

NEW YORK - Bowie Kuhn has said that the issue of free agent compensation was too important to surrender in the baseball negoti-ations, and added: "We won't abandon it just to shorten th strike."

"I think I'm doing what's right for the game and everybody in it," Kuhn said in a recent interview. 'And I'm going to stick to my Kuhn, who has been commis-

ground, even when his position was criticized by players and at times by several dissident club But he broke his silence in a se-

aimed at defending his role in the strike and his determination to see it ended only when the main issue was resolved. He denied he had fomented the strike and that he wanted to break

ries of statements apparently

the players' union or that he was directing the club owners' strategy. Answering Charges

"There is no one brilliant stroke or coup that the commissioner could make to settle it, like calling all 26 owners together and hurling orders at them," he said. "The only way the commissioner could do that is if he had the power to burl orders at both sides. I don't think it's fair for me to tell the clubs they must avoid a strike at all costs.

"There's a body of opinion that says the commissioner should avoid or stop a strike at all costs. But compensation for free agents is necessary. The owners feel it I feel it. It must be resolved in collective bargaining, and we'll solve it. The process, though, may be a little slower than anybody want-

Kuhn placed the main burden of settling the strike on Ray Grebey, the director of the clubs' player re-lations committee, and Marvin Miller, executive director of the Major League Baseball Players Association. He also placed the burden of the strike on Miller, and went to considerable lengths to deny that the strike had been plotted and then directed by him as a kind of backstage mastermind.
"I don't think I should be out

pounding my chest in public," Kuhn said. "But I think that I've been the target of a lot of comment that's been unfair. And from time to time, I should answer the quotes to the effect that Kuhn and

and irresponsible. It's not Kuhn or Grebey who called the strike, it was Miller. "The union is something you need in basehall. You can't have 650 players and 650 agents all ar-

guing their problems. There has to be a unified group expressing their viewpoint, and the same is true for the owners. But you'd have to be paranoid to think I'd want to break the union." Kuhn agreed that the strike was

fans, but he said the cost had to be accepted as part of the way of doing business. "The fans don't like it." he said, "the players don't like ir, the clubs don't like, the umpires don't like it. Kuhn doesn't like it, nobody likes it. There's a sioner of baseball for 13 years, has generally stayed in the backcause interest in the game is so in-"But baseball isn't immune to

> strikes. They're bound to happen. We don't have a bad record. There's been only one other strike during a season. And I don't think you're doing any long-term harm to the acceptability of hasehall to Asked if many financial casualnes might result if the negotiations

dragged on, he said: "I anticipate

that this is an imminently resolv-

able issue. I'm not saying it will be resolved imminently, but it could "The question is frequently asked," he said, "what is Bowie Kuhn doing? I've probably never been busier in my life as commissioner, never got less sleep, and I don't expect to get much for the duration. But the focus should be

on the bargaining table, not on me.

"The commissioner's powers are mostly restraining. I don't make labor policy or labor decisions. "How come I was able to open the training camps in 1976? Well, in 1976, I vetoed a decision by the clubs to keep the camps closed. In 1969, just after I'd been elected, the clubs were sitting on the sidelines and not even meeting with

the players in another dispute. I

told them that wasn't right, and two or three days later they met. "What I'm saying is that I do make moves on procedural sub-jects but feel I do not have the power to make moves on substantive matters."

On the central issue in the strike, Kuhn offered no hope that the clubs would ahandon their position. Under the system created in 1976, any team that loses n free agent receives an amateur draft choice in return; the clubs now are demanding more compensation, in the form of a professional player from the roster of the team that signs the free agent. The players say the clubs would be reluctant to sign free agents or pay as much for them if they had to surrender a player in repurn.

"it's necessary for haseball and good for the fans." Kuhn said. "When a star player moves and you get an amateur back, it's not fair to the fans. You lose a Dave Winfield or a Don Sutton, and you get little back. It's remote. Under our proposal, you'd get a player who can step into the lineup."

Red Smith: A Look at the All-Wise, All-Merciful Czar Thus when baseball's chief mag-New York Times Service

NEW YORK -At first meeting. you recognize Bowie Kuhn as a man of lofty moral principles. His upright bearing, the shine on his shoes and his uncomplaining willingness to pose for photographers baseball commissioner who, in his own words, believes he is "doing what's best for the game and everybody in it."

He is also all-wise. His intelligent sideburns tell you that. He is all-merciful, as he has demonstrated on several occasions. notably when, after suspending George Steinbrenner for two years on the ground that felons should not operate major league ball clubs, he permitted George to help save his job as commissioner and then cut the sentence by half.

It follows, then, that if a being who is all-wise, all-merciful and principled to the ragged edge of sainthood says that former employers must be compensated when a former employee finos a job elsewhere, it must be true. If he also says that this does not apply to former employees like Mickey Morabito, the press agent who left the Yankees for the Oakland A's. that must be correct also.

What 'Fair' Means

To be all-wise, all-merciful and all-good, a being must of necessity be fair, that is — to quote Webster's New International - "characterized by frankness, honesty. impartiality, or candor; upright; free, or based upon that which is free, from suspicion or bias; equi-table; just: affording no undue ad-vantage; as, a man fair in his dealings: fair play; a fair proceeding, statement or ruling; a fair field, and no favor. 'All's fair in love and

13 Auto Racers Fined \$5,000

The Associated Press PARIS — The International Auto Sports Federation has fined 13 Grand Prix drivers \$5,000 each for staging a demonstration at the starting line at the Belgian Grand

Prix last month, it was learned The drivers fined were understood to be: Jacques Lassite, Didier Pironi, Jean-Pierre Jabouille (since retired), Alain Prost, Gilles Villeneuve, Mario Andretti, Eddie Cheever, Bruno Giacomelli, Beppe Gabbiani, Piercarlo Ghinzani, Siegfried Stohr, Marc Surer and

Keke Rosberg.
They left their cars on the starting grid in Belgium to back a de-mand for a reduction from 30 to 26 cars in qualifying sessions, to support protests by mechanics over working conditions in the pits, where an Italian mechanic had been fatally injured, and to press for a stronger say in Grand

istrate says the compensation issue is too important to surrender and vows. "We won't abandon it just to shorten the strike," one has to

A similar question arises when

table authority says: "I've seen a number of quotes that Kuhn and Grebey formented the strike with the idea of breaking the union. That is ridiculous. It's nonsensical and irresponsible. It's not Kuhn or Grebey who called the strike, it was Miller." All parties concerned were privy to the agreement that averted a strike a year ago. It provided for a

joint committee to seek an accept-

able modification of a compensa

wonder who "we" might be.

ion plan put forward by the owners and rejected by the players. It provided further that if no modified plan could be agreed on, the owners could implement their plan and the players could strike. The owners did not seek or suggest a compromise plan. They merely announced that they were implementing their plan, whereat the players announced that they were striking, as provided by the agreement. For more than a year, Ray Grebey has been saving that

compensation was "in the agree-

ment." It has not occurred to him

that the strike was part of the same agreement. Compensation for free agents is necessary," Kuhn soid recently. "The owners feel it. I feel it. It must be resolved in collective bar-

gaining, and we'll solve it." One besitates to offer suggestions to an all-wise heing, but per-haps it should be noted that what the owners feel and the commis sioner feels is not necessarily what the players feel, although they have been willing all along to ac-cept some form of compensation.

There are others who can find no justification whatever for com-pensation. What possible claim does a former employer have on a former employee who has worked out all his contractual obligations and taken a job somewhere else? A claim that has no legal or moral basis is nothing short of immoral. "It's necessary for baseball and

When a star player moves and

you get an amateur back, it's not fair to the fans. You lose a Dave Winfield or a Don Sutton, and you get little back. Under our propos-I. you'd get a player who can step into the lineup. Note the term, "our proposal."
What did the Red Sox fans get ack when Harry Frazee sold Babe and a personal loan of \$350,000? How about the Washington fans when Clark Griffith sold his short-

stop, manager and stepson-in-law,

Joe Cronin, for \$250,000 and Lyn

Lary? OK, those crimes were com-

mitted before Bowie could break a

lance for the fans. So when M.

Donald Grant got rid of Tom

Seaver, Dave Kingman, Jon Matlack and Jerry Koosman, what did Bowie do for New York Mets Years have passed since the commissioner, informed that Den-

ny McLain, the pitcher, was ban-

krolling a bookie joint, proved himself all-merciful by describing the prank as an aberration. If W.S. Gilbert had been around he might have written: I know the rules of baseball and my logic is sensational.

I catch a pitcher making book and call it aberrational. To the brightest star in flannel or the lowliest petitioner I am the very model of a major league commissioner.

Charles Addams: His 'Heap' Is No Van Ordinaire

By Glenn Collins

New York Times Service
NEW YORK — Charles Addams — cartoonist, cemetery aficionado and Bugatti racer - eyed the approaching intersection in Hampton Bays, N.Y., and kept his foot firmly on the accel-erator of the Heap, his 17-foot-long van. "Living in the Heap is like riding on a train in the great days of the first-class Pullman cars," he mused. "The Heap is the poor man's Lucius Beebe railroad car."

Suddenly the traffic light turned amber. Addams tromped on the accelerator with his L.L. Bean hunting shoe, and the van boomed through just before the light winked red.
"Watch it!" he cackled. "The

old Heap's comin' through."
The Heap is Addams' Dodge Sportsman Trans-Van, the Addams conveyance for thousandmile camping trips, trips to automobile races and picnic jaunts. This is, however, no van ordi-

Addamses at door.

naire, and the lord of the Heap is, no garden-variety RVer. Addams, of course, is the creator of the family of fiends and ghouls that began haunting The New Yorker magazine in 1937. The ghastly group was transformed into "The Addams Family," the 1960s series that still flickers with the phosphorescence of decay in television reruns.

Personalized Decor

But how, specifically, does the Heap differ from other vehicles? Well, perhaps it's the huge stuffed grackle, perched on the dining table, evilly eyeing the stuffed partridge on the wall. Or perhaps it's the stained-glass galley window that glows with ghostly orange light in the Heap's dark-plush interior and sepulchrai brown curtains. Or perhaps it's the circular brass plate bolted to the back

BEWARE OF THE DOG AS FROM IS MAY 1864, SIR JOHN RUMBLELOW WILL NOT BE RESPONSIBLE FOR TRESPASSERS ATTACKED BEYOND THIS POINT

door that reads:

"I think of it as my home away from home," said the 69-year-old Addams, whose weekend house in the Hamptons is similarly affixed with a menacing placard that reads "NE DERANGEZ PAS LE CHIEN" (Do not disturb the dog).

Addams sees his Victorianiza-

tion of the van as more than deccration; the touches are essential elements that make it a suitable Addams habitation. The van sports a small wine cellar, a stersports a small wine cellar, a ster-eo cassette player with four speakers ("Vivaldi is good driv-ing music," Addams said); Victo-rian needlepoint pillows; a sam-pler with spidery stitching that says "Home Sweet Home"; a handsome photograph of Gen. Winfield Scott shouldering a great burden of epanlets, and a picture of Charles Addams at the age of 114, posed in a wastebasket

Interior of the "poor man's Lucius Beebe railroad car."

"to protect my modesty," he said). The van is equipped with a propane stove, a serviceable kitchen, a chemical bathroom and fold-out heds.

Addams' co-conspirator in the travels of the Heap is his bride of a year, the former Marilyn Matthews Miller, known to all as Mathews Milet, known to an as Tee. Their on-the-road companions are Alice B. Curr, "a dog of uncertain ancestry," said Addams; Desti, part shepherd and part wolfhound; Tigger, a feisty papillon, and Macy, a Yorkshire terrier that is, Addams said, "more than a little goony."

The canines also act as watch-

The canines also act as watch-dogs for the real Addams family, which, he said, quests for "isolatwhich, he said, quests for "isolated campsites on barren ground with no trees." The dogs are, on the whole, well-behaved travelers. "I think they're glad to be asked," he said.

"I had long wanted a van—something about the cosiness and the idea of the gypsy caravan," Addams related. In January, 1979, he and Tee spotted a for-

1979, he and Tee spotted a forsale ad placed by an airline pilot in Southampton.

"The next thing we knew, we were both taking turns giggling and test-driving the van," Mrs. Addams said. "It was snowing outside. We were trying things out and we were carrying on as if we were both absolutely cracked." Her husband says only that he "bought the van on im-

Efforts to make it a fitting habitat for Addams began immediately. An early addition was a red Bugatti sign affixed to the van's exterior. He is a proud owner of that classic racing car and frequently attends antiquecar competitions.

Other campers have never pestered, or even recognized, the silver-haired Addams, whom cab drivers persist in mistaking for Walter Matthau and once, he said, Lyndon Johnson. Addams denied that he toured every cemetery and coffin-making establishment in the vicinity of his campsite. "However, my feet do begin to lead me if there's a churchyard in the neighbor-hood," he said.

The Heap has been serviceable in other ways. Addams recalls one rollicking occasion when he and his wife and six dinner guests - including the interior designer Sister Parrish and the Doubleday & Co. chairman, John T. Sargent — used the Heap to take a leisurely drive about the Hamptons before stopping at a

restaurant for dinner. How did the Heap get its name? "Well, it's heap as in the phrase 'rev up the ...," Addams explained. "Tve always thought of American cars as heaps, and this is just an old Dodge. I've had heaps before, but this is the only true heap."

South African Prospector PEOPLE: South African Diamon A South African prospector is on the proposed purchase by the 5 his way to Easy Street after finding year-old British actor of an eight a 148 carat diamond, with an estimator of year-old I 8-m room villa for a reported I.8-m

lion Swiss francs (about \$850,000 mated valued of \$1 million, on his He said the appeal had become in material because Moore had o claim. Boet Sonneburg said he had been almost broke and ready to give up his private claim near the tained a residence permit in Sw: Cape Province town of Windsorzerland. ton. But his luck picked up. Three: days before he found the milliondollar diamond he came across an 18-carat diamond and sold it for \$25,000. Far from elating in his newly found wealth, the prospector said he has been out looking for his next bonanza. "Good things come in threes don't they?" said the 40-year-old digger, who

Italian government leaders led by President Sandro Pertini gave two ancient bronze warriors a royat welcome as they went on a dis-play at Rome's Quirinal presiden-tial palace. The president, Premier Giovanni Spadolini, and 27 ministers trooped to an enclosed halcoters trooped to an enclosed halco-ny to view the well-preserved, life-size statues, believed to be 2.500 years old. Holding Spadolini's arm, the 84-year-old president said in jest he hoped the new govern-ment would be as long-lived as the celebrated bronzes, which were re-trieved from the Jonian seabed in trieved from the Ionian seabed in 1972 off the coast near Riace, in the southern Italian region of Calabria. After five years of restoration, the bronzes were unveiled in Florence last January and were immediately hailed by press and public as art works of the highest caliber. The Rome exhibit was arranged at the personal request of Pertini, who first viewed them in Florence, where they outdrew the city's main tourist attractions. The discovery of the two statues also sparked a dispute over who owns them. Shortly after their discovery. the townspeople of Riace tried to place the bronzes in the middle of place the broazes in the name of their village's square. From there the dispute grew to involve cities throughout haly. The controversy was recently resolved following the decision to construct a special mu-seum in the southern city of Reg-gio Calabria. After the Rome ex-hibit, the statues will go to Reggio.

vowed to keep prospecting for a

few more years.

Roger Moore, star in five James Bond movies, has won official Swiss permission to join Elizabeth Taylor, Julie Andrews, David Niven and other celebrities as an owner of real estate in Gstaad. A spokesman of the Swiss Justice Ministry said federal authorities have withdrawn an appeal against.
